

NOTE: No sensitive plants were found in the project footprint east of La Media Road.

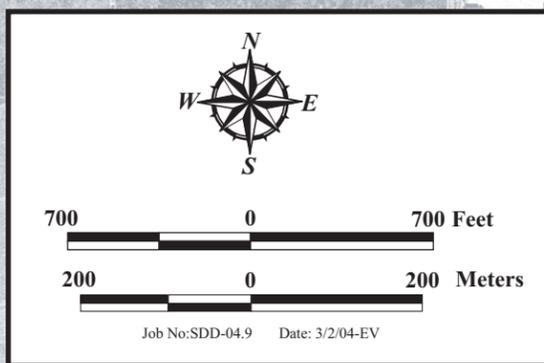

LEGEND

LISTED SPECIES
2002 Rare Plants (1994-1998 HELIX locations verified by AMEC)
 + San Diego button-celery (*Eryngium aristulatum* var. *parishii*) ERAR*
Historic Annual Rare Plants (HELIX and RECON)**
 + San Diego button-celery (*Eryngium aristulatum* var. *parishii*) ERAR*

SENSITIVE SPECIES
2002 Rare Plants (1994-1998 HELIX locations verified by AMEC)
 ● San Diego sunflower (*Viguiera laciniata*) VILA*
 ● San Diego barrel cactus (*Ferocactus viridescens*) FEVI*
1994-1998 Historic Annual Rare Plants (HELIX)
 ■ Variegated dudleya (*Dudleya variegata*) DUVA*

OTHER
 # Number of individuals within population counted by AMEC (2002)
 # Number of individuals within population counted by HELIX (1994 - 1998)
 ~ Generalized location of population counted by AMEC (2002)
 ~ Generalized location of population counted by HELIX (1994-1998)
 ~ 2002 rare plant survey boundary (AMEC)
 — North alignment
 — Central alignment (preferred)
 — South alignment

*These species also depicted within generalized locations
 The data identified the plant species within each of the 64 vernal pools on this property, but did not include counts of individual plants.
 HELIX ERAR observations west of La Media Road are from 1994-1998.

Matchline to Figure 4-13A
