Project Description

State Route 57 (SR-57), also known as the Orange Freeway, is a main north/south arterial connecting eastern Los Angeles County and the Inland Empire Counties to north and central Orange County. It is the gateway to businesses within the City of Brea.

A \$225,000 Safety Highway Operations Protection Program (SHOPP) is planned to reconstruct the Northbound SR-57 off-ramp at Imperial Highway (SR-90) PM 19.464 in early/mid June 2012. This project will enhance safety and improve operations.

Motorists' safety is Caltrans' number one priority.

Project Details

The purpose of this Safety Improvement Project is to remove the existing asphalt concrete pavement and replace it with open graded concrete. The scheduled work will also replace pavement striping and markers, upgrade signal push button function to standard and replace inductive loop detectors.

Planned Closures

A fifty-five (55) hour, full weekend off-ramp closure is scheduled from Friday, June 8th at 10:00 p.m. to Monday, June 11, 2012 at 5:00 a.m. Additionally, one traffic lane and the sidewalk will be closed on Eastbound Imperial Highway during construction. Signs will be posted to alert motorists and pedestrians.

Once the Northbound SR-57 off-ramp at Imperial Highway has been reconstructed, the ramp will be closed the following weekend, Friday, June 15th & Saturday, June 16th from 10:00 p.m. to 5:00 a.m. to cut loops for the signals and replace temporary lane striping.
