

American Recovery and Reinvestment Act

State Route 39 Rehabilitation Project

CALIFORNIA DEPARTMENT OF TRANSPORTATION

SR-39 PAVEMENT REHABILITATION

FACT SHEET– APRIL 2009

The Project

This project will rehabilitate 23 lane-miles of asphalt concrete pavement. Existing Asphalt Concrete pavement will be removed and replaced with Dense Graded Asphalt Concrete. Work also includes drainage improvements, bus pad construction, localized broken curb and sidewalk repair and restriping, bridge widening for the pedestrian sidewalk on Coyote Creek bridge, and curb ramp construction /modification is included.

The Need

This project is part of the District 12 10-year plan and is needed as part of the pavement rehabilitation program for maintenance of the roadway pavement.

Jobs/Benefits

This project will create new jobs and affect the re-hiring of many laid off construction workers. The construction of this project will improve structural integrity and ride quality of SR-39, as well as upgrade pedestrian facilities to meet current ADA standards and requirements.

Project Status

The project has been advertised for bid, and the contract will be awarded July 2009.

Project Costs

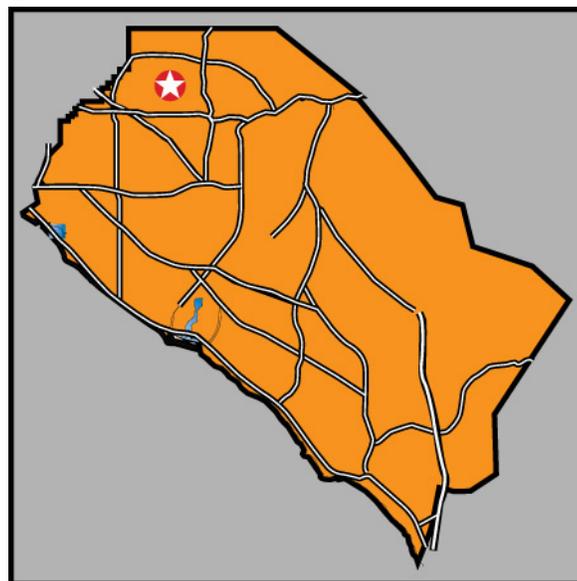

\$7.6 Million

Funding Source: SHOPP MAJOR

Project Schedule

Start Construction: Summer 2009

Project Completion: Summer 2011
