

RAIN DELAYS BRIDGE DEMOLITION

The rain expected Friday, Dec. 12, has delayed by one day the demolition of the north side of the Ortega Highway bridge.

The full closure of I-5 in San Juan Capistrano that was scheduled for midnight Friday-6 a.m. Saturday has been canceled. The full closure of Ortega Highway over the freeway during that time also has been canceled.

Under the revised schedule, demolition will begin Saturday night. The bridge is scheduled to close at 11 p.m., and the freeway is set to close in both directions by midnight. Both roads are anticipated to reopen at 6 a.m. Sunday, Dec. 14.

Motorists traveling north and south on I-5 will be diverted onto the Ortega Highway off-ramps and back onto I-5 via the Ortega Highway on-ramps.

Motorists who want to drive into San Juan Capistrano from I-5 must use Camino Capistrano or Junipero Serra Road exits.

Demolition work will continue on Friday, Dec. 19, and Saturday, Dec. 20. Closure times and detours are expected to remain the same on those dates.
