

JUNE 2016

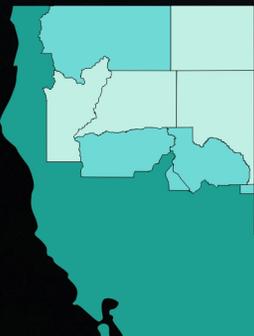

CALIFORNIA STATE ROUTE 299 TRANSPORTATION CONCEPT REPORT

ROUTE LOCATION

District 2

SYSTEM
PLANNING

2016 Re-validation

To meet requirements of the Department of Finance and agreed to by Caltrans management; a comprehensive update of the 2009 version of this Transportation Concept Report for State Route (SR) 299 was not performed. Rather, the data and conclusions in the TCR were evaluated against conditions in 2016. This review found that there were no changes in conditions (including traffic volumes, population growth rates, land use/zoning, and environmental issues) that would significantly affect any of the recommendations and priorities provided in the 2009 document. Hence, the District has determined that best use of public resources is to re-validate the TCR in its entirety rather than undertake a complete update. The "Future Management Strategies" as outlined in the Executive Summary on page 25 are still relevant and to be pursued.

SUBMITTED FOR RE-VALIDATION BY:

 _____ SCOTT WHITE Chief Office of System Planning Caltrans, District 2	<u>9/23/16</u> Date
