

Calmentor North Region and ACEC-CA Sierra Chapter  
Invites you to a Special Joint Event

## High-Speed Rail Overview, Progress Report and Discussion of Engineering Challenges

Calmentor North Region and ACEC-CA Sierra Chapter welcomes **Scott Jarvis**, Chief Engineer for the California High Speed Rail Authority, who will provide a general overview of high-speed rail, update us on the project's progress, and discuss some of its engineering challenges.

The High-Speed Rail project is one of the largest transportation projects undertaken by the State of California in decades. Work on construction Package 1 (CP 1) -- Madera to Fresno -- has been well under way, and site preparation for CP 2 -- Fresno to Bakersfield -- is about to begin. Scott will also provide information on small business opportunities and how small businesses can get involved in this landmark project. Networking opportunities will be available before and after the presentation.

**Registration is from February 15 to March 14.**  
Attendance fee is \$20 per person including lunch.
