

**CALTRANS UPCOMING PROJECT
ROUTE 152 ROADWAY SAFETY IMPROVEMENT PROJECT**

The California Department of Transportation (Caltrans) will start a project in early June, 2013 to improve safety on State Route 152 near Gilroy from Old Lake Road to 0.3 mile east of Old Lake Road (Segment 1) and from 0.4 mile west to 0.6 mile east of Lovers Lane (Segment 2). Both Segments 1 and 2 will have a layer of hot mix asphalt (HMA) overlay and a median rumble strip. Segment 2 will be widened to make room for a left turn pocket to Lovers Lane, wider shoulders, and straightening out the sharp turns. Construction work is expected to be completed in March of 2014, after which a period of plant establishment will commence that will last until March of 2015.

Most construction activities will occur during the day time hours between 7:00 AM and 3:30 PM on weekdays (Monday through Friday), behind K-rails with no impact traffic. However, there will be intermittent lane closures requiring one way traffic control during the evening between 9:00 PM and 5:00 AM on weekdays. There may also be some weekend work.

During construction, either direction of Route 152 may be closed. Traffic will be directed through the construction zone by flaggers. Motorists may experience some delays.

Please slow for the Cone Zone and drive safely.

Please contact Bernard_Walik@dot.ca.gov or call 510-286-5705 if you have any questions.
