

Interstate 80 Rehabilitation Projects

CALIFORNIA DEPARTMENT OF TRANSPORTATION

CRACK, SEAT AND OVERLAY THE EXISTING PAVEMENT ON THE MAINLINE PROJECT

FACT SHEET

The Project

This project is to resurface, restore, and rehabilitate the mainline along Interstate 80, in Solano County, from 0.8 mile east of Air Base Parkway overcrossing in Fairfield to 0.7 mile east of Leisure Town Road overcrossing in Vacaville.

The Need

The purpose of the project is to extend the pavement service life of the existing roadway.

Benefits

The project will extend pavement service life and improve the road conditions, as well as mobility, in the corridor.

Partnership

The project is developed by the California Department of Transportation (Caltrans).

Project Status

The project was awarded in April 2008.

Project Costs

The programmed construction cost is \$37.4 million.

Project Schedule

Start Construction: Spring 2008
Finish Construction: Fall 2009

Summary

The new pavement will improve the riding quality for motorists and extend the pavement service life in the corridor.
