FOR IMMEDIATE RELEASE

Media Day June 30 for 880 Mission Project Warren Avenue Interchange

WHAT: Media Day for the opening of the Warren Avenue Interchange. Contract 1A of the project constructed a new Warren Avenue/I-880 Interchange and widened I-880 from Fremont Boulevard in Fremont to Dixon Landing Road in Milpitas. The project re-striped I-880 from Fremont Boulevard in Fremont to the Route 237/I-880 Interchange to complete the I-880 HOV Lanes per the MTC HOV Master Plan.

WHEN: Tuesday, June 30, 2009 at 10 a.m.

WHERE: Warren Avenue I-880 Overcrossing, Fremont, Calif.

WHO: Emily Landin-Lowe, Caltrans Project Manager
Sam Wang, Caltrans Construction Senior

WHY: The project improves local/regional traffic connections, traffic safety, operations, and implements proposed HOV lanes. Additionally, footpaths, bike paths, and recreational use areas are located west of the project area within the City of Fremont. Presently, this area is difficult to access from the east side of I-880 by bicycle or on foot. This project includes a sidewalk and bicycle route on the Warren Avenue Overcrossing, which will allow for pedestrian and bicycle access to the west side of I-880. **This is a great opportunity to get video and still photos prior to the opening of the Warren Avenue Interchange.**
