CARQUINEZ STRAIT CLOSURES COMPLETED EARLY!

On Monday, June 24, 2002 Caltrans and their contractor FCI/Cleveland Bridge a Joint Venture strung the final cable for the pedestrian bridge access system needed to complete the main cables for the new Carquinez Bridge. **All further closures of the Carquinez Strait relating to this operation are now cancelled.**

Complete closures of the Carquinez Strait were necessary for this operation. Caltrans, FCI/Cleveland Bridge and the Coast Guard worked together to come up with a conservative schedule of closures that showed 14 days of work to be carried out between June 17th and July 16th. Through the safe, swift and diligent work of all parties involved the team completed the operation in only 8 days.

If you have any questions about the strait closures or the Carquinez Bridge Projects please call the Caltrans Carquinez Bridge Public Information Office at (510) 787-4080.
