Caltrans to close 50 spaces in Park and Ride Lot

Petaluma, CA- Caltrans will temporarily close about half the parking spaces at the Lakeville Highway Park and Ride lot in Petaluma at Highway 116.

Fifty of 111 spaces will close, allowing work crews to construct a retaining wall, part of a larger project to replace the southbound Highway 101 bridge over Highway 116.

The closure begins starting November 10, 2004 and continue for approximately one year.

In its finished condition the lot will be repaved and expanded with additional spaces.

The new bridge will be wider facilitating a longer ramp to allow vehicles to accelerate more before merging onto highway 101.
