## FOR IMMEDIATE RELEASE

### U.S. 101 Petaluma River Bridge Construction Project

Northbound Traffic Shift Planned for Friday Night, November 7

Northbound Petaluma Boulevard South On-Ramp to Close for 8 or More Weeks

**Petaluma, Sonoma County** – On Friday night, November 7, Caltrans plans to switch northbound traffic to the median lanes being constructed south of the Petaluma River Bridge. If this traffic switch is delayed due to weather conditions, it will be rescheduled. The traffic switch will take place on or after Friday night, November 7.

- The northbound on-ramp from Petaluma Boulevard South will be closed while construction workers raise the old northbound lanes and construct an on-ramp to match the height of the new roadway. The ramp closure is expected to last at least eight weeks and possibly longer, depending on weather conditions during construction.
- During the traffic shift on Friday night, November 7, the northbound off-ramp to Petaluma Boulevard South will also be closed from 9 p.m. Friday night until 5 a.m. Saturday morning, November 8.
- **Detour:** During the long term northbound ramp closure, take Petaluma Boulevard South, turn right on D Street, then turn right on Lakeville Street, and continue to northbound U.S. 101.

Please drive cautiously through the construction zone, leave a safe traveling distance between your vehicle and the vehicle ahead of you, and Slow for the Cone Zone. The California Highway Patrol will be on site during these closures.

For more information about this Caltrans construction project, visit the website at <http://www.dot.ca.gov/dist4/101petalumablvd>.
