**FOR IMMEDIATE RELEASE**

## **Full Closure & Detours on Route 29 Wednesday Night in Vallejo Lane Closures & One-Way Traffic Control on Route 37 Next Week**

Vallejo - On Wednesday night, January 19, 2005, crews will close Route 29 in both directions between the Route 29/37 junction and Mini Drive from 10:00 p.m. to 5:00 a.m. Thursday morning, for the purpose of structural concrete placement on the Route 37/29 Interchange Structure, weather permitting.

Detour signs will direct northbound Route 29 traffic east (right), at the Route 29/37 junction and then left onto Broadway and north on Broadway to and left onto Mini Drive and then right back onto northbound Route 29. Southbound traffic will be detoured off Route 29 and left onto Mini Drive and then right onto Broadway and then right onto westbound Route 37 to and left back onto southbound Route 29.

Starting Monday night, January 17, 2005, and continuing each night through Friday night (except Wednesday), crews will close one lane of Route 37 between the Napa River Bridge and Sacramento Street between 8:00 and 9:00 p.m., for the purpose of removing temporary concrete railing (K-rail).

Beginning Monday night at 9:00 p.m., and continuing each night until 5:00 a.m. (except Wednesday), the following morning, traffic will be stopped in both directions and one-way traffic control will be in effect between the Napa River Bridge and the Route 37/29 junction, weather permitting.

Minor traffic delays are anticipated, and use of alternate routes is advised when possible. Motorists are advised to make note of closure times and to use caution when traveling through the construction zones and detour routes.
