FOR IMMEDIATE RELEASE

Lane Closures Planned for Interstate 680 Mococo Overhead Bridge Rehabilitation Project

Contra Costa County – This week Caltrans will install concrete barriers on northbound and southbound Interstate 680 near the Marina Vista Avenue/Waterfront Road interchange. This work is necessary to begin construction of a one-lane access route that in the event of an emergency will connect northbound and southbound Interstate 680.

- On Tuesday night, October 21 and Wednesday night, October 22, Caltrans will close two lanes of northbound Interstate 680 from 8 p.m. to 5 a.m.
- On Wednesday night, October 22, and Thursday night, October 23, closures will continue on southbound I-680, from 7 p.m. to 5 a.m.

The southbound Interstate 680 Mococo Overhead Rehabilitation project includes a seismic retrofit of the southbound Marina Vista/Waterfront Drive off-ramp and bridge over Marina Vista Road/Waterfront Drive. The southbound off-ramp will be replaced, and a one-lane emergency access route will be built to connect southbound I-680 with northbound I-680. This access route will be used for emergency vehicles if an earthquake results in a closure of southbound I-680.

Major construction activities will begin in Spring 2015 and continue through Winter 2015. Activities include performing a seismic retrofit of the southbound structure over Marina Vista and Waterfront Roads and replacing the southbound Mococo off-ramp. There will be a full closure of the southbound off-ramp from April/May 2015 to October 2015. During this closure, southbound traffic will be detoured to the I-680 Arthur Road interchange.

If work is delayed due to weather conditions, it will be rescheduled for a later time. Please drive cautiously through the construction zone, follow the direction of flaggers, leave a safe traveling distance between your vehicle and the vehicle ahead of you, and

TRAFFIC ADVISORY

Slow for the Cone Zone. The California Highway Patrol will be on site during these closures.
