FOR IMMEDIATE RELEASE

U.S. 101/State Route 116 Construction
Demolition Continues for Northbound U.S. 101 Bridge
Weekend Demolition over SMART Tracks
Night Demolition Planned at SR 116

Petaluma, Sonoma County – Demolition continues for the northbound U.S. 101 bridge over State Route 116/Lakeville Highway.

Demolition will generally take place during the day, Monday through Friday, from 7 a.m. to 5 p.m. However, at times the contractor may need to work later than these posted hours. Residents and business staff may notice increased noise during this activity.

Two additional activities are planned that will include extended demolition hours or night work:

- Demolition is scheduled for January 25 - 26 over the Sonoma-Marín Area Rail Transit (SMART) tracks. The contractor will work Saturday, January 25, from 7 a.m. to 8 p.m. If work is not completed Saturday, it will continue on Sunday, January 26, from 7 a.m. to 8 p.m.
- Caltrans is planning night work over State Route 116 from Tuesday night, February 11 through Thursday night, February 13. Due to traffic on SR 116, the roadway will be closed and the demolition will take place at night. Residents may notice increased noise during this construction activity. A traffic advisory will be released when the closure dates and times are confirmed.
