FOR IMMEDIATE RELEASE

Herbicide Spraying on Route 84 in San Mateo County

San Mateo County- The California Department of Transportation (Caltrans) Roadside Vegetation Control Crews have postponed spraying herbicide on Route 84, westbound in San Mateo County from Post Mile 1.0 to Post Mile 14.93, until Tuesday, March 17, 2015, and the following Tuesday, March 24, 2015, between the hours of 9:00am to 2:00pm.

During a routine inspection, Caltrans deemed spraying is necessary for safety measures, such as clearing weeds around signs and guardrails, sight distance, establishing fire strips and invasive plants and species that maintenance is not able to control by any other means. Scotch broom (an invasive shrub) has encroached the travel way which creates a safety hazard for motorist. Crews will not spray in driveways, creeks or congregated mailboxes. **No spraying will take place within 50 feet of all creeks and rivers. (Milestone, EsplAnade 200SC and Matrix SG will be used).**

NOTE: No spraying will take place in the Town of La Honda or San Gregorio.

Properties displaying a "No Spray Sign" will not be sprayed.

(spraying is weather permitting)

This is a moving operation; work will take place on the shoulder. No lane closures are necessary.

Please be alert for workers and "Slow for the Cone Zone."
