

CITY OF FAIRFIELD  
STATE OF CALIFORNIA

NOTICE OF CONSTRUCTION

**Fairfield/Vacaville Train Station Project**

The City of Fairfield has entered into an agreement with CC Meyer and Teichert Construction for the construction of the Fairfield/Vacaville Train Station with associated improvements and a 6-lane overpass. The project will be located at the corner of Peabody Road and Vanden Road in Fairfield, California. Estimated construction duration is two years.

**Anticipated Construction Schedule**

1. March 2015--Start construction, emergency access road under construction
2. **June 12, 2015**-- Peabody Road closed, from Vanden Road to Huntington Drive
3. July 2015--Railroad and overpass construction activities
4. **August 14, 2016**--Reopen Peabody Road
5. March 2017--Project completion

**Summary of the components of the Fairfield/Vacaville Train Station Project:**

Train Station

1. 40' x 800' center island platform with amenities including shelters, lights, public address and variable message sign systems – constructed on UPRR property.
2. 20' x 150' pedestrian underpass with stairs and ADA ramp both north and south.
3. North plaza area with 6 bus bays and bus shelters.
4. South plaza area.
5. Plaza foundations near RR tracks built with 24-inch diameter cast in drill hole (CIDH) piles.
6. Parking area with lighting, drainage and landscaping.

Roadways

1. Widening of Peabody Road to 6 lanes from Vanden to Huntington Road.
2. 1600-ft. pre-cast and cast-in-place 6-lane overpass over UPRR tracks with MSE walls and embankment. Bent and abutment foundations using 72-inch and 24-inch diameter CIDH piles.
3. New, two-lane transit access road through station.
4. Extension of Vanderbilt road south to the new transit access road.
5. 20-ft. wide temporary access road approximately 60 feet west of Peabody Road.
6. Street lights and landscaping.
7. Two new intersections with traffic lights and fiber optic interconnect.
