FOR IMMEDIATE RELEASE

Highway 12-Jameson Canyon Expect Delays due to Paving Work Eastbound Lane Reductions Extended Week of Mon, Dec 16th

NAPA and SOLANO COUNTIES – The California Department of Transportation (Caltrans) will implement ongoing paving work as part of the Highway 12 Jameson Canyon widening project in Napa and Solano Counties.

The paving will require an additional week-long period of daytime lane reductions on eastbound Highway 12 between Kelly Road and Lynch Road in Napa County. Crews will reduce eastbound traffic on Highway 12 from two to one lane in the area.

Some paving days scheduled earlier this month were postponed due to cold weather.

This latest phase of work is scheduled to start on Monday, December 16th and be completed Tuesday, December 24th. Eastbound lane reductions will be in effect from 7 a.m. until 2 p.m. Monday through Friday. All work is weather permitting

The scope of construction may cause some motorists to travel at slower speeds during this phase of work. However, the California Highway Patrol (CHP) and flaggers will help direct motorists. Caltrans will also install changeable message signs. Motorists should expect delays and allow for extra travel times.

Highway 12-Jameson Canyon Alternative Route

To avoid delays, motorists may consider using Highway 37 as an alternative route. Eastbound Highway 12 motorists are advised to use southbound Highway 29 to eastbound Highway 37 to eastbound Interstate 80. Westbound Highway 12 motorists should use westbound Interstate 80 to westbound Highway 37 to nb Highway 29.
