FOR IMMEDIATE RELEASE

San Pedro Creek Bridge Pile Driving to Begin (State Route 1) Pacifica

San Mateo County- The California Department of Transportation (Caltrans) will continue pile driving (bridge foundation work) for the San Pedro Creek Bridge Replacement Project adjacent to San Pedro Avenue and State Route 1 in Pacifica.

Pile driving will be performed starting Wednesday, September 17, 2014 to Friday, September 19, 2014, between the hours of 7:00am to 5:30pm.

Pile driving involves hammering large steel units into the ground to hold structural supports for highway bridges and other structures. Residents can expect noise and vibration.

This work is part of the San Pedro Creek Bridge Replacement Project that started in May 2014. The project will install a longer and higher bridge over the creek to provide the capacity need for the 100-year flood event. In addition, a Class 1 multi-purpose path will be added along its eastern side.

This project will be completed by October, 2015 (weather permitting)

NOTE: No closures are needed for pile driving as a detour has been in place on San Pedro Avenue since June, 2014.

For the latest road conditions, try Caltrans Quick Map: <http://quickmap.dot.ca.gov>
Or follow Caltrans on Twitter at: <https://twitter.com/CaltransD4>

You can go to the project website to be added to the group e-mail list or get more information on the project at: <http://www.dot.ca.gov/dist4/projects/creek/>

Caltrans appreciates your patience as we work to maintain the highways.
