FOR IMMEDIATE RELEASE

State Route 152 Pavement Preservation Project Santa Clara County

The Caltrans Department of Transportation (Caltrans) is starting a grind and pave construction project on SR-152 from U.S. 101 to SR-156, near the City of Gilroy. The primary work will involve grinding out the existing pavement and overlaying it with a new layer of hot mix asphalt. In addition, new rumble strips will be installed along the median and outside shoulders.

These activities will produce some levels of unavoidable noise; however, it will be kept to within construction standards.

Most construction activities will occur during the nighttime on weekdays, with lane closures in effect between 8 PM and 7 AM of the following day. There will be various freeway and ramp closures during this project; however, Caltrans will always provide at least one open lane in either direction of travel and never close two consecutive ramps. Flaggers will be present to provide one-way traffic control during lane closures as needed. The project is expected to be completed this summer 2015.

Planned Ramp Closures, 6/25/15 – 6/27/15

Closure: Northbound U.S. 101 off-ramp to Eastbound SR-152

Detour: Take northbound U.S.101 off-ramp to Leavesley Road to southbound U.S. 101 on-ramp to connector off-ramp to eastbound SR152

Closure: Westbound SR-152 on-ramp to northbound Sr-152

Detour: Take connector off-ramp to southbound U.S. 101 to Monterey St to loop on-ramp to northbound U.S. 101.

Advance warning changeable message signs and detour signs are in place to assist motorists traveling in the area. For more information on this project please visit our website at:
