

OVERNIGHT RAMP CLOSURE

November 4, 2011

Overnight Closure of Northbound Highway 1 to Northbound Highway 101

Friday, November 4 at 10:00 p.m. – Saturday, November 5 at 10:00 a.m.

Beginning Friday, November 4 at 10:00 p.m. to 10:00 a.m. the next morning **the ramp from northbound Hwy 1 to northbound Hwy 101 will be closed.** This closure will begin at Lake Street.

This closure is weather dependent and could be rescheduled due to rain. The alternate date for this closure is Saturday, November 5.

There will also be a closure of southbound Highway 101 to southbound Highway 1, tentatively scheduled for the night of Friday, November 11. An advisory will be sent when the date for this closure is set.

Optional trips should be avoided during this closure.

All dates are subject to change due to weather and unforeseen conditions. Please visit www.PresidioParkway.org for the most up-to-date information.

CONSTRUCTION MILESTONES

ABOUT THE DOYLE DRIVE REPLACEMENT PROJECT

The replacement of Doyle Drive with the Presidio Parkway is a collaborative effort led by the California Department of Transportation, the San Francisco County Transportation Authority, and the Federal Highway Administration.

Doyle Drive is structurally and seismically deficient and must be replaced. The roadway is facing the same problem that threatens other crucial components of the nation's infrastructure – the ravages of time and continual use. Originally built in 1936, Doyle Drive has reached the end of its useful life. The Presidio Parkway is based on a world-class design that will improve the seismic, structural and traffic safety of the roadway. It also will be more sensitive to community needs and to the national park setting, reducing impacts on biological, cultural, historical and natural resources and on the surrounding neighborhoods.

HIGHLIGHTS OF THE NEW DESIGN INCLUDE:

- A parkway with two sets of short tunnels, a wide landscaped median, traffic calming transitions to city streets and the inclusion of safety shoulders
- A spectacular regional gateway that respects the natural contours of the surrounding area and complements the unique environment of San Francisco and the Presidio, a national park
- New direct access to the Presidio and enhanced views
- A more centralized location for transit connections
- Enhanced pedestrian connections within the Presidio to the Main Post, Crissy Marsh, the National Cemetery and historic batteries
- Reduced light and noise intrusion at Crissy Field

CONSTRUCTION OVERVIEW

Construction of the Doyle Drive replacement, the Presidio Parkway, began in December 2009, more than a year ahead of schedule, due to \$122 million from the American Recovery and Reinvestment Act of 2009.

Major construction of the new roadway will take approximately four years to complete and has been planned in two major phases in order to keep traffic flowing during the replacement. Seismic safety will be achieved in early 2012 after the completion of the first phase.

Major construction is expected to be complete in 2015 and will be followed by an extensive landscaping program. An ongoing series of advisories will update the public about what to expect as work progresses.
