State Route 1

Roadway Resurfacing on Shoreline Highway in Marin County

August 16, 2012

Starting tomorrow morning, Friday, August 17, Caltrans will begin repairing damaged sections of the roadway surface on Highway 1 (Shoreline Highway) between Flamingo and West California. The work will be performed during daytime hours for a period of approximately two and one half weeks. This work is being performed during the daytime to mitigate the potential noise impacts of the machinery used to remove the damaged roadway surface.

There will be one-lane traffic control during this work. Flaggers will assist with traffic control.

Around August 27, the Caltrans' contractors will begin to resurface the roadway from Highway 101 to Stinson Beach with a new wearing course of asphalt that will extend the life of the heavily traveled roadway. The resurfacing activity will take place overnight. However, the operations will move down the roadway relatively quickly at a rate of approximately 2 miles per night. You may be disrupted for a portion of one or two nights as the equipment passes by.

Caltrans apologizes for any inconvenience this may cause. Please remember to Slow for the Cone Zone.

For more information about Caltrans projects, please go to the Caltrans District 4 website at www.dot.ca.gov/dist4.
