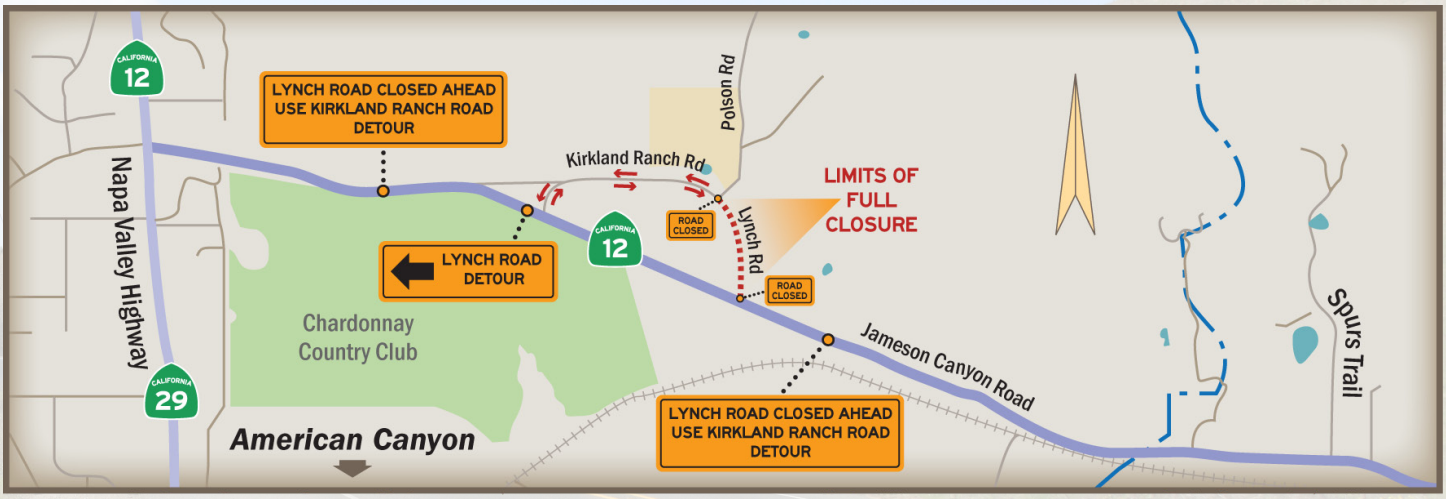
Highway 12 – Jameson Canyon Widening Project

LYNCH ROAD – TEMPORARY CLOSURE



What will be happening?

As part of the Highway 12-Jameson Canyon Widening Project, Caltrans will need to temporarily close Lynch Road between Highway 12 and Polson Road in Napa County for approximately four to six months.

When will this start?

The closure will be in effect starting on or after Tuesday, April 30th.

When will it reopen?

Depending on several factors, Lynch Road could open as early as four months after work starts. However, it could remain closed as long as six months.

Why will it be closed so long?

Crews will need to complete four phases of major work as they work toward completing improvement on Highway 12 near Lynch Road. Crews will complete these phases:

1. Realign Lynch Road with the new widened section of Highway 12
2. Complete concrete median work on Highway 12 near Lynch Road
3. Build a drainage crossing under Highway 12 and over Fagan Creek
4. Widen Highway 12 eastbound and westbound near Lynch Road

Lynch Road – Temporary Closure

How do I access my property from Highway 12 during the closure?

Residents are advised to exit Highway 12 at Kirkland Rand Road and access Lynch Road from Kirkland Ranch Road.

Will emergency personnel and law enforcement know how to reach my property during the closure?

Yes, Caltrans will notify CHP, local law enforcement, emergency responders and local government regarding the Lynch Road closure.

Where can I find more information about the Highway 12-Jameson Canyon Widening Project?

You can find more information on our Caltrans-Highway 12-Jameson Canyon webpage and on twitter at:
