

# OPEN HOUSE

## FOR STATE ROUTE 84 NILES CANYON II SAFETY IMPROVEMENT PROJECT

State Route 84, Niles Canyon Road, is experiencing a significant number of collisions. The California Department of Transportation's records show that between 1999 and 2009 there were 455 traffic collisions, 10 of which resulted in fatalities and 237 of which resulted in injuries along State Route 84 in Niles Canyon.

Caltrans is proposing the State Route 84 Niles Canyon II Safety Improvement Project from half a mile east of Palomares Road to just east of Sunol. The improvements include 8-ft. shoulders, shoulder

rumble strips, and improved sight distances. To construct the proposed improvements, the project would require cutting some uphill slopes, filling some downhill slopes, and building retaining walls at these locations totaling 1.8 miles in length.

We are inviting you to attend one of the three meetings listed below to review the original project designs and the proposed changes. You will have an opportunity at the meeting to officially submit your written comments on the project before the comment period for the Draft Environmental Impact Report closes on Friday, August 5, 2011.

**Sunol Glen School Auditorium**  
11601 Main Street  
Sunol, CA 94586  
Tuesday, July 26, 2011  
7 pm – 9 pm
