## Contract 2A7904, San Mateo 101 Ramp Metering Design-Build Project

### General Project Description

Caltrans is procuring a design-build contract for a ramp metering project on US-101 in San Mateo County. The project proposes to design and construct ramp metering at 29 on-ramp locations in both northbound and southbound direction on US-101 from South San Francisco to San Carlos. Typical ramp metering work includes electrical, roadway, installation of pole structures, signing, pavement repair and delineation, traffic control, and environmental storm water and other work. The estimated cost of the design-build project is $10,000,000.
