

July 14, 2006 Update

U.S. 101 Widening Project, Santa Rosa

Closures

- Steele Lane continues to have a reduced number of lanes through 2008, but remains open 24 hours a day.
- College Avenue continues to have reduced lanes through 2008, but remains open 24 hours a day. Reconfiguration of the lanes is tentatively set for **mid-August**.
- The Third Street undercrossing of U.S. 101 continues to be closed.
- The Downtown/Third Street offramp continues to be closed.
- There may be various short-term, overnight lane closures along the roadway, connectors, and ramps as crews continue to place concrete barriers, clear medians, and begin rough grading.

Construction

- The Prince Memorial Greenway has closed until Fall. Crews are constructing retaining walls in the area.
- At Steele Lane crews will be working at the abutments, especially footings and walls. No lane closures are expected.
- Crews will be driving pipe piles at College Avenue. This will be loud work that may affect surrounding residents and businesses. Crews are working on the construction of the abutment walls and columns. Around **mid-August**, crews anticipate reconfiguring the lanes so that they may be able to work on abutment 3. More information will be provided on this as it becomes available.

Other issues

- Crews are making efforts to keep dust at a minimum as they do work at the median and structures.
- Caltrans, contractors, and other partners continue to address ongoing signage concerns. Closed signs have been placed over the downtown exit signs.
