

11.0 Disposition of Section 106

This proposed project has a minimal Area of Potential Effect (APE). The APE is described as the area in which historic resources may be affected by a federal undertaking and would consist of areas paralleling both sides of the roadway. Each area extends approximately 5 meters from the edge of the shoulder pavement to the freeway fencing and is located within the state's right-of-way. The proposed project would not affect any properties on or eligible for the National Register of Historic Places and a literature search and field surveys did not result in identifying any historic or archaeological resources within the APE.

A Negative Historic Property Survey Report (HPSR) has been prepared as part of the final disposition of Section 106.

HPSR Form (12/97)

HISTORIC PROPERTY SURVEY REPORT

California Department of Transportation

1. UNDERTAKING DESCRIPTION AND LOCATION

District	County	Route	Post Mile(s)	Charge Unit	Expenditure Authorization
04	Son	101	14.9-19.7	4232	1328U0

Description

Caltrans proposes to widen both the north and southbound directions from two lanes each to three lanes. The third north and south lanes are to be designated High Occupancy Vehicle (HOV) lanes. Widening will also necessitate reconstruction of overpasses and on/off ramps, and the relocation of power poles, emergency radiophones, and assorted road signs.

The roadway in question extends along U.S. 101 from the northern edge of Rohnert Park to a point immediately north of its intersection with State Route 12.

2. AREA OF POTENTIAL EFFECTS

Description

The APE consisted of corridors paralleling both sides of the roadway. Each corridor extended approximately 5 meters from the edge of pavement to the freeway fencing.

3. PUBLIC PARTICIPATION

(For the following, list name(s), date(s), and location(s) as appropriate. List organizations contacted and attach correspondence and record of verbal comments received as appropriate.)

- Local Historical Society/Historic Preservation Group

- Local Government Preservation Office/Planning Department

- Native American Group(s)

- Public Information Meetings

- Native American Heritage Commission

- Other

- Summary of comments received/results

HPSR Form (12/97)

4. PROPERTIES IDENTIFIED

(List properties, or refer reader to appropriate technical study attached, according to their National Register status. Provide, as appropriate, complete address, period and level of significance, criteria, map reference, and any existing state or local designation)

Properties previously listed or determined eligible or ineligible (include date of listing or determination)

Properties which appear eligible/ineligible

Properties unevaluated (provide reason why, e.g., archaeological properties not evaluated because of multiple alignments; property will be protected as an ESA, etc.)

5. LIST OF ATTACHED DOCUMENTATION

(Provide the author and date of the technical reports)

- Project, Location, and APE Maps
- Historic Study Report (HSR)
- Post-1945 MOU Short-form HASR
- Historic Architectural Survey Report (HASR)
- Historic Resource Evaluation Report (HRER)
- Archaeological Survey Report (ASR)
- Archaeological Excavation Report (CARIDAP, XPI, PII, PIII)
- Other (Specify)
- California Bridge Inventory print-out sheet
- Correspondence (specify if not noted above)

6. FINDINGS

- No historic properties have been identified within the APE of the proposed undertaking. Request the SHPO's concurrence that responsibilities pursuant to 36CFR800.4(d) implementing Section 106 of the NHPA have been met.
- Historic properties or potentially historic properties have been identified within the APE of the proposed project.
 - Documentation appended. Request the SHPO's concurrence that responsibilities pursuant to 36CFR800.4(a)-(c) implementing Section 106 of the NHPA have been met.
 - Documentation will be submitted to the SHPO at a later date.
- The undertaking will have no effect as described below. Request the SHPO's concurrence that responsibilities pursuant to 36CFR800.5(a)-(b) implementing Section 106 of the NHPA have been met.
