

# Devil's Slide/Hwy 1 Storm Repair

Daily Updates from Bijan Sartipi

Daily Update  
Aug 1

## Repair Work

Devil's Slide (post mile 39.14)

- Electrical contractor St. Francis Electric continued to work on the slide sensor system.

Working on the slide sensor system

- Walers C and D were stained today.

- The site was swept and some concrete safety K-rail was moved into position.

Slide Location No. 3 (post mile 39.77)

- The temporary detour for this location was paved today. Gordon ball started to install wood lagging to the H-beams.

Paving the detour at location No. 3

Starting to install wood lagging
