Traffic Shift Scheduled for Northbound U.S. 101 in Rohnert Park

Rohnert Park - Traffic on northbound U.S. Route 101 in Rohnert Park will be shifted into the center median starting on the morning of Friday, March 26, 2010, Caltrans announced today. The shift will start just north of Rohnert Park Expressway and continue to just past the Santa Rosa Avenue off ramp.

The newly-paved center median will accommodate traffic while construction work proceeds on the Wilfred Avenue/Golf Course Drive Interchange Improvement Project. Just north of the Wilfred/Golf Course interchange, traffic in both directions will be shifted onto the existing western side of the Commerce Boulevard overpass. The traffic shift will be in place for about one year.

In addition to the traffic shift, there will be new, temporary on and off ramps to and from Golf Course Drive, located about one thousand feet south of the current ramps. There will also be a new temporary off ramp to Santa Rosa Avenue; a realigned on ramp from Rohnert Park Expressway; and an auxiliary lane between the Rohnert Park Expressway on ramp and the Golf Course Drive off ramp.

More information about the Wilfred Avenue/Golf Course Drive Interchange Improvement Project is available on our web page: <http://www.dot.ca.gov/dist4/wilfredave>
