CALTRANS ANNOUNCES FULL CLOSURES DUE TO CONSTRUCTION

WHAT: Full closures and detours along Interstate 5 (I-5) for continued bridge work in Fresno County.

WHEN: **NORTHBOUND AND SOUTHBOUND DETOURS**
Each Detour will begin at 11:00 p.m. and continue until 4:00 a.m. the following morning.

WHERE: Fresno County; along I-5 between State Route 33 and Manning Avenue

The California Department of Transportation (Caltrans) announces contractor, **Western Structures** will implement full freeway closures next week as part of an ongoing bridge work project at the Tumey Gulch Bridge located along I-5 in Fresno County. At no time will both directions of travel be closed at the same time.

A northbound full closure with detour is anticipated to take place on Tuesday night, November 3rd, however, the closure may be delayed due to final concrete strength test results obtained on Tuesday.

A southbound detour will occur the following evening Wednesday, November 4th, depending on the outcome of the northbound closure.

Motorists along I-5 will be directed to exit I-5 and will be redirected to designated detour route. This detour is approximately 22.6 miles in length. Motorists are advised to avoid the area or add additional time to their commute. Closures are weather permitting.

Additional closures will be scheduled in the upcoming weeks in order to complete additional phases necessary to complete this improvement project. Advance signage will be activated next week notifying motorists of full closure and detour route.

Caltrans thanks motorists for their patience and reminds drivers to be “Work Zone Alert” as we work to complete improvement project. Please watch for construction personnel, follow detour signage **Slow for the Cone Zone** at all times.
