

# CALTRANS COMMUTER ALERT

**Today's Date:** August 13, 2009  
**District:** 6 - Fresno  
**Contact:** Holly Vogel, Caltrans PIO (661) 326-3968  
**E-mail:** [holly\\_vogel@dot.ca.gov](mailto:holly_vogel@dot.ca.gov)

## UPDATE

### NORTHBOUND INTERSTATE 5 PAVEMENT REHABILITATION PROMPTS TEMPORARY LANE/RAMP CLOSURES

**Lebec, Calif.** – The California Department of Transportation (Caltrans) is underway with a pavement rehabilitation project on northbound Interstate 5 in Kern County near the Los Angeles County line to the Grapevine Creek Bridge.

To reduce the impact to motorists, the majority of the work is occurring at night. Lane closures are in place to safely reconstruct and replace deteriorated concrete panels on the northbound Interstate 5 outside travel lane and grind and resurface the three adjacent lanes with rubberized asphalt on the 10-mile segment of Interstate 5.

#### **LANE/RAMP/ CLOSURES STARTING WEEK OF AUGUST 9 2009:**

- Northbound Interstate 5 #4 (slow lane) from the Kern/Los Angeles County Line to the Grapevine Creek Bridge will close for six weeks
- The northbound Interstate 5 Lebec Road on/off-ramps will close for six weeks

#### **DETOUR:**

**From northbound Interstate 5, exit at Frazier Mountain Park Road off-ramp and follow the detour signs to Lebec Road. To access northbound Interstate 5 from Lebec Road, take southbound Interstate and follow the detour signs**

Security Paving Company was awarded the \$15.5 million pavement rehabilitation project, which is anticipated to be complete in late summer 2009.

Caltrans thanks motorists for their patience as we work to repair this segment of Interstate 5. Motorists are reminded to allow additional travel time and drive with extra care through construction areas. Please *slow the for cone zone*.
