STATE ROUTE 99 WIDENING PROJECT IN GOSHEN BEGINS

The California Department of Transportation (Caltrans) in cooperation with Papich Construction, Inc. announces the beginning of night-time lane closures during the State Route 99 Tulare to Goshen-North Segment Widening Project in Tulare County.

This $42 million dollar project will convert an approximate 4 mile section of existing four lane conventional highway to a six lane conventional highway. The project limits are on State Route 99 near Goshen in Tulare County from just north of Avenue 204 to just south of the city of Goshen.

Night-time lane closures will be as follows:

7:00 p.m. to 6:00 a.m. nightly, beginning Sunday evening and ending Friday morning of each week. There will be no lane closures on Friday or Saturday evenings. Construction crews will conduct nightly lane closures on southbound and northbound State Route 99 between State Route 198 and Avenue 304.

During these closures, State Route 99 will be reduced to one lane in each direction while crews are working. Commuters will experience delays and are encouraged to take alternate routes whenever possible. California Highway Patrol (CHP) will be on site assisting with traffic control. Motorists are expected to obey all traffic laws.

For updates and information regarding lane closures, commuter alerts and construction schedules during the length of this construction project, visit the Caltrans District 6 website, at www.dot.ca.gov/dist6 and click on the Tulare to Goshen logo.
