Sensitive Wildlife Species

San Joaquin Kit Fox

San Joaquin Kit Fox
(Vulpes macrotis mutica)

- Federally listed as endangered; state listed as threatened
- Smallest member of the dog family in North America
- Active year-round; primarily nocturnal
- Typically inhabits grasslands and scrublands, but can also use agricultural areas and disturbed habitats. Inhabits the Central San Joaquin Valley.
- Decline caused by loss, degradation, and fragmentation of habitats due to agricultural, industrial, and urban developments
