Caltrans Releases the Spring Issue of:
The Mile Marker, A Caltrans Performance Report

Caltrans has released the third issue of The Mile Marker, a periodic reporting of areas where the department is excelling and where further improvement is needed.

“As a government department that touches the lives of nearly everyone in the state every day, it is incumbent on us to provide factual information in a narrative that is easily understandable,” Caltrans Director Malcolm Dougherty wrote in the report’s welcome letter.

The Mile Marker is one of Caltrans’ steps to improve its transparency and accountability by making the department’s work more accessible and understandable to the public. Its intention is also to quantify and measure the department’s performance – what’s working, what’s not and what could be improved – based on consistent markers.

The Mile Marker features an at-a-glance chart showing the department’s progress from the previous report, where it’s reaching its goals and where it needs to improve.

The Mile Marker is distributed to the Legislature, local government agencies and transportation professionals statewide and around the country.

Caltrans also releases 23 statutorily required reports on a periodic basis on subjects including project delivery, finance, fish passage, state rail and highway maintenance.

Copies of this issue of The Mile Marker are available at:
http://www.dot.ca.gov/ctjournal/MileMarker/2015-1/index.html (online)

Copies of the 23 statutorily required reports are located at:
Report Highlights Caltrans’ Commitment to Improve Travel for Non-Motorized Users

Caltrans’ jump into the nation’s top ten bicycle-friendly states and the creation of the nation’s largest active transportation program are just a few of the achievements highlighted in Caltrans’ annual Non-Motorized Transportation Facilities Report.

The report is an in-depth look at Caltrans’ successes that emphasize the department’s mission to provide a safe, sustainable, integrated and efficient transportation system to enhance California’s economy and livability.

“California has always been a transportation leader, and this report reinforces that hard-earned reputation,” said Caltrans Director Malcolm Dougherty. “Transportation is a vital part of our daily lives, and increasing the diversity of travel options is something the public wants. We are committed to making walking and biking safer.”

The report provides an overview on the state’s Active Transportation Program (ATP), the largest of its kind in the nation. In its first call for projects in May 2014, Caltrans received 771 project applications requesting more than a billion dollars. The California Transportation Commission has adopted the first program of projects for the ATP, which includes 265 projects using $368 million in ATP funds. Of this amount, $311 million is dedicated to 220 projects that benefit disadvantaged communities.

The report also highlights program activities and completed projects, as well as other state and federal partnering programs to establish and improve bicycle and pedestrian facilities. Among the completed projects highlighted in the report is the Oak Manor Trail in the city of Ukiah. The project improved cross-town connection to schools, shopping centers and employment centers. It also gave pedestrians and cyclists a new off-street travel alternative. Southern California saw its first “Bicycle Boulevard” in the city of Pasadena—an area with a high concentration of cyclists. The project improved bicycle safety and advanced the vision of commuting in Pasadena without a car.

“Caltrans’ has historically been known as a highways agency, but we are shifting our focus to creating a California transportation system that links communities and is safe for all travelers, including those who choose to travel by biking and walking,” said Dougherty. “We couldn’t accomplish this without our partners at all levels, from the federal government to grassroots organizations and the public.”

The state’s jump in 2014 from 19th to 9th in the nation in The League of American Bicyclists annual report is due to notable progress in legislation, funding and policy that will make it easier to build bike lanes and mandate drivers to give cyclists three-feet of space when they pass.

Also, as part of its effort to streamline construction of multimodal local streets and roads, in April 2014, Caltrans became the third state to endorse National Association of City Transportation Officials guidelines that include innovations such as buffered bike lanes and improved pedestrian walkways.

Caltrans also released its 2010–12 California Household Travel Survey Final Report that showed residents used walking, biking, transit and other non-motorized sources for 23 percent of trips. That was more than double the amount in the 2000 survey. This underscores the rising demand for non-motorized transportation.

May is National Bike Month!

May is National Bike Month! Sponsored by the League of American Bicyclists, this event is celebrated in communities from coast to coast. Established in 1956, National Bike Month is a chance to showcase the many benefits of bicycling — and encourage more folks to give biking a try.

As a national sponsor, the League provides resources to help plan events and each year the number and diversity of Bike Month celebrations continues to grow, accelerating the momentum around bicycling nationwide.

Bike to Work Day
This year, Bike to Work Day will be observed on May 21, 2015. Most trips Americans make are short: 50 percent are less than three miles, 40 percent are less than two miles, and 28 percent are less than one mile. These distances are ideal for beginning commuters. Bike to Work Day happens throughout California with a diversity of special events and competitions. In Fresno, Caltrans District 6 participates in the Bike to Work Corporate Challenge which is sponsored by iBikeFresno.org. The event is participated by local agencies and businesses within Fresno. District 6 has had a large amount of riders compete in this annual event and has placed first in the large corporation category a number of times. Other fun rides are organized throughout the month of May.

Team Bike Challenge
Gather your friends, colleagues and neighbors to form teams and pedal to win! It’s a fun and easy way to see just how much biking does for your health, budget and the environment.

How the Team Bike Challenge Works:
• Form a team of up to 5 people.
• Sign up your team.
• Earn points for each bike ride you take and your total daily mileage.
• Compete with your friends on your personalized leaderboard.
• At the end of the month, the team with the most points wins.

The Team Bike Challenge competition Kicks Off May 1st, 2015!

On September 26, 2013, Governor Brown signed legislation creating the Active Transportation Program (ATP) in the Department of Transportation (Senate Bill 99, Chapter 359 and Assembly Bill 101, Chapter 354). The ATP consolidates existing federal and state transportation programs, including the Transportation Alternatives Program (TAP), Bicycle Transportation Account (BTA), and State Safe Routes to School (SR2S), into a single program with a focus to make California a national leader in active transportation. The ATP administered by the Division of Local Assistance, Office of Active Transportation and Special Programs.

The purpose of ATP is to encourage increased use of active modes of transportation by achieving the following goals:

- Increase the proportion of trips accomplished by biking and walking,
- Increase safety and mobility for non-motorized users,
- Advance the active transportation efforts of regional agencies to achieve greenhouse gas (GHG) reduction goals,
- Enhance public health,
- Ensure that disadvantaged communities fully share in the benefits of the program, and
- Provide a broad spectrum of projects to benefit many types of active transportation users.

ATP Cycle 2 for 2015 has begun! The Call for Projects began in March 2015 and applications are expected to be due June 1, 2015.

Caltrans will be hosting a series of ATP training workshops that began in March and will continue through May, 2015.

1. ATP Cycle 2 – District Application Workshops (How to Apply for ATP Cycle 2)

This workshop is intended to assist applicants on how to apply for and complete the ATP Cycle 2 Application. The application workshops will be held in each of the Caltrans Districts (March – April 2015).
2015 Active Transportation Program, Continued

2. Support for Smaller Agencies and Disadvantaged Communities: Developing Effective Active Transportation Projects and Programs

This workshop is intended to provide technical assistance to smaller agencies and disadvantaged communities to support development of impactful active transportation plans, programs, and projects that can successfully compete for ATP funding. The focus will be on the elements that make for a high quality bicycle or pedestrian plan, project, or program.

**QUESTIONS AND CONTACTS**

For More information on the program, please see:  
http://www.dot.ca.gov/hq/LocalPrograms/atp/index.html

For more information on the planned workshops, please see:

**UPDATE ON KINGS COUNTY PROJECTS**

**SIGNAL COUNTDOWN/ ACCESSIBLE:** Install signal countdown heads/accessible pedestrian signs in Fresno, Kern, Kings, Madera and Tulare at various locations. Funding: SHOPP. Ready to advertise May 2015; award contract late summer 2015. Curt Hatton, Project Manager, (559) 243-3445.

**Utica 2R:** Overlay on I-5 near Kettleman City, from 3.3 miles south of the Utica Avenue overcrossing to the I-5/SR 41 junction. Funding: SHOPP. Project awarded to Granite Construction. Begin work spring 2015; complete construction spring 2016. Chris Gardner, Project Manager, (559) 243-3444.

**I-5 Cable Barrier:** Install high tension cable barrier on I-5 from PM 21.5 in Kings County to PM 2.25 in Fresno County and from the El Dorado Avenue overcrossing to the I-5/SR 198 separation. Funding: SHOPP. Ready to List spring 2016. Curt Hatton, Project Manager, (559) 243-3445.

**SR 43 and Lacey Boulevard Intersection Mitigation:** Construct roundabout on SR 43 in Kings County from the SR 43/198 separation to the San Joaquin Valley Railroad Crossing. Funding: Local. Ready to List May 2015. Chris Gardner, Project Manager, (559) 243-3444.

**Kings 198 - 2R Pavement Rehab:** Rehabilitate the existing pavement on SR 198 in Kings from Fresno/Kings County line to 0.04 mile east of South Rossi Overhead. Funding: SHOPP. Ready to List achieved June 2, 2014; begin construction spring 2015. Minerva Rodriguez, Project Manager, (559) 243-3518.

**Whitley Avenue Intersection Improvements:** Construct roundabouts on SR 43/Whitley Avenue and on SR 137/Whitley Avenue in the City of Corcoran. Funding: SHOPP. Ready to List spring 2016. Steven Milton, Project Manager, (559) 243-3456.

**19th Ave Landscaping:** Landscaping and plant establishment on SR 198 in the City of Lemoore at 19th Avenue. Funding: STIP. Advertising ended on December 10 with contract awarded to Wabo Landscape & Construction, Inc. Drought resistant plantings and water conservation has been incorporated into the design. Anand Kapoor, Project Manager, (559) 243-3588.

**Latache Median Barrier:** Install a median barrier on SR 198 in and near Lemoore from 0.5 mile west to 1.16
mile east of 19th Avenue. Funding: SHOPP. Ready to list summer 2015; complete construction summer 2016. Judy Aguilar-Luna, Project Manager, (559) 243-3457.

**Lemoore Overlay:** Overlay on SR 198 from 19th Avenue to the 14th Avenue overcrossing. Funding: SHOPP. Areas in good condition will be excluded from the project. Project is in process of award and approval. Contractor may begin spring 2015. Victor Shaw, Project Manager, (559) 243-3441.

**SR 198 Hanford CAPM:** Overlay on SR 198 in the City of Hanford from the 14th Avenue overcrossing to the 11th Avenue undercrossing. Funding: SHOPP. Ready to list October 31, 2013; contract awarded to Tiechert Construction on March 13, 2014; began construction April 2014; construction complete December 2014. Minerva Rodriguez, Project Manager, (559) 243-3518.

**3 Deck Rehab:** On SR 198 near the City of Hanford. Bridge decks to be rehabbed at 14th Avenue overcrossing, the Hanford-Armona Road overcrossing, and the 11th Avenue overcrossing. Funding: SHOPP. Deck rehab was completed at the 11th Avenue overcrossing. A separate spin-off project is programmed to handle supplemental funding to be voted at the August CTC meeting to replace the 14th Avenue overcrossing deck instead of rehab. This work will begin October 6 and anticipate completion by end of July 2015. Victor Shaw, Project Manager, (559) 243-3441.

**Hanford Armona Bridge Deck Replacement:** This is the location removed from the 06-46220 project due to additional funding needed to cover hidden deterioration. Funding: SHOPP Location scope was increased from deck rehab to deck replacement. This project was amended into the SHOPP and anticipate going to construction in summer of 2015. Curt Hatton, Project Manager, (559) 243-3445.

**Avenue Interchange in Hanford:** In the City of Hanford on State Route 198. Project will increase the capacity of the existing interchange with the addition of a loop ramp and widening of the main structure along 12th Avenue. Project was awarded on April 22 to Agee Construction Corporation of Clovis and approved on May 13, 2014. In construction. Anand Kapoor, Project Manager, (559) 243-3588.
The California Department of Transportation (Caltrans) District 6 is headquartered in Fresno. This geographically diverse district is the second largest of the 12 Districts statewide, stretching from the southernmost part of Yosemite National Park in the north to the Mojave Desert. It includes Madera, Fresno, Tulare, Kings and Kern counties. Interstate 5 and State Route 99 run the length of District 6, serving as the main north-south arteries for not just the Central Valley, but for the entire state as well.

Visit District 6 on the web at www.dot.ca.gov/dist6/
