FOR IMMEDIATE RELEASE

Mammoth Changeable Message Sign Project

Mono County – The California Department of Transportation (Caltrans) has begun a project to install a changeable message sign on eastbound 203 0.2 miles east of Meridian Blvd. The purpose of this sign is to alert travelers departing from the Mammoth Lakes area of the driving conditions on US Hwy 395. Winter snow and ice and associated chain controls, as well as the potential for year round high winds will be conveyed in real-time to allow drivers to make better trip decisions and encourage safer driving.

Monday through Friday, one lane of traffic will be closed on eastbound SR203 although drivers should not encounter any delays. Construction is expected to be complete by August 2013.

The contractor for this \$155,552 project is Traffic Development Services, Inc from Moorepark, CA.

For the safety of the construction crew and motorists, please be attentive to closures, slow for the cone zone, and move over one lane where possible.
