It seems from what I understand from many written letters, hearings-that I am not eligible to purchase this house. (My home for 38 (years)

The stress of anticipating an eviction (when house is sold) combined with my age (72) and several other once-in-a lifetime, serious crucial life decisions, and on-going medical issues, makes moving a very difficult task at this time for me. (physical and financial)

Can you and your regulations provide some viable options for tenants like me?

- .. Not eligible to buy
- .. 38 years in property
- .. Age 72
- .. Serious Financial issues due to medical expenses that are uncertain and on-going, due to chronic side effects from medical issues ( for the last 14 years)

An option: Continue as a rental until I can find an affordable place to transition to that meets my mandatory needs-that is, in or near this residence which is near to all my medical facilities and doctors: etc.

Please find me more options-more time to rent, more time before vacating, or?

What can I do-or others in my same situation? HELP, Please. How long can I stay?
