Andy,

Here is the translation:

Mr. Brent L. Green,

First, I apologize for writing in Spanish.

I have a comment that is very important to me. I am a single 64 year old person living alone in a one-bedroom Caltrans home. For 11 years now, I have been very sick with my nerves here where I live. In October 2013, my house was infested with termites. Caltrans did not feel it was important and I am still suffering. I don't have clothes because I am throwing them away because they are full of bugs. My furniture is damaged (eaten) by termites and I have thrown out some of the pieces (furniture). I cannot sleep or eat because they (bugs) fall on my head, in my ears, nose, and eyes throughout the house. I asked them to give me another house but was told that I would need to pay \$800 per month in rent and I can't. I paid for the carpet in the home because it was full of animals. Caltrans didn't want to pay and I paid \$500.

Mr. Brent, they (Caltrans) are going to sell these homes, and I only hope that I receive money like Caltrans said they would give in the amount of \$5,250 to look for another home. It (the money) is so I can leave as quickly as possible from here. I can no longer bear it. I am very sick with my nerves that I cannot sleep nor eat because the bugs fall from above and in my food.

Please help me.

Thank you .

Yolanda Moreno
