Phone number (o [redacted]

Current tenant properties have gone unmaintained and are in need of much repair. Current tenants should be allowed to purchase any vacant or available property; especially if Cal Trans imposes 30 year regulations. Tenants should be allowed to purchase all land orginally included in the original sale of the property and not parsed off or split to be sold separately by Cal Trans. All land should be part of sale price & not increased or charged to tenant as separate properties. Even vacant lots next to homes. Tenants should be allowed to make necessary improvements to property to bring the house to the standards of the neighborhood.
