Subject: Affordable Sales Program

I grew up off of St. John Street in Pasadena. We moved back to the area in 2003. I have been living and renting in So. Pas for 12 years. I investigated the rentals for state owned homes in the 710 Corridor. They were actually more expensive and prohibitive to rent than the market. I was paying \$2900/mo. and \$3000/mo. for well-maintained 2400 to 2800 SF homes in South Pasadena. As the market has been climbing we have been searching for a house to buy with the state owned properties never available. After an arduous escrow we finally closed on a very small house. The opportunity house my family of 6 with adequate space along the corridor where I grew up would be amazing. BTW I always thought the freeway should go through, tat said I have any ideas about alternative solutions. No one has listened.

Best Regards,
