Subject: modifications to to revised SRIA

Dear Sirs,

As recommended by the Roberti Bill's original author..Mr Roberti at the public hearing on August 10th 2015. The determination of medium income should be location specific to the areas that the Caltrans properties are location in. I feel that the determination of medium income should be tied to the zip code in which the properties are located. I also think tenants should have at least six months time in which to find mortgages or funding and complete the necessary paperwork to purchase the surplus properties. Thanks so much for your consideration in this matter.

Thanks, William Regan
