

VIA DOCUMENT CONTENT BY ASSESSMENT LEVEL

CONTENT	MINOR	MODERATE	ADVANCED	COMPLEX
Pages	1-3, Memorandum	5-10, Report	10-30, Report	40+, Report
Project Description	Brief description	Description with corridor map and typical section	Detailed description with detailed maps and cross-sections	Detailed description with detailed maps and cross-sections
Pre-Conditions	General and descriptive	Detailed generalized description supplemented with photographs and maps	Detailed specific descriptions, photographs and maps	Detailed specific descriptions, photographs and maps
Viewers	General and descriptive	Generally describe viewer exposure and sensitivity	Describe viewer exposure and sensitivity by viewer group	Describe viewer exposure and sensitivity by viewer group
Level of Analysis	General and descriptive	Changes to vividness, intactness, unity described by viewpoints and landscape units	Changes to vividness, intactness, unity calculated by viewpoints and landscape units	Changes to vividness, intactness, unity calculated by viewpoints and landscape units
Simulations	None to one	One to a couple of stills	Multiple stills typical; animation as necessary	Multiple stills typical; animation frequently used
Mitigation (No mitigation for CEQA CE projects)	None to minor described	Minor to some described, possibly simulated	Detailed descriptions and simulations	Detailed descriptions and simulations
Cumulative Impacts	None	General description	Detailed description	Detailed description with simulations
Executive Summary	No	Yes, paragraph to page	Yes, several separate pages	Yes, several separate pages
