How to Apply

Applications are accepted annually, usually in August, by the California Natural Resources Agency (RA) in Sacramento. The RA reviews and recommends a list of projects to the California Transportation Commission (CTC) for funding consideration. It is anticipated the following March, the CTC will give preliminary approval to projects to be funded in fiscal year 2011-2012. Once the annual EEM Program is adopted, the projects are administered by Caltrans. If you would like to receive an application package or have a question regarding completing the application, please contact:
