

Modifying Internet Browser Settings to view Adobe PDFs

➤ For Internet Explorer, follow these steps to change your pdf viewer to Acrobat Reader.

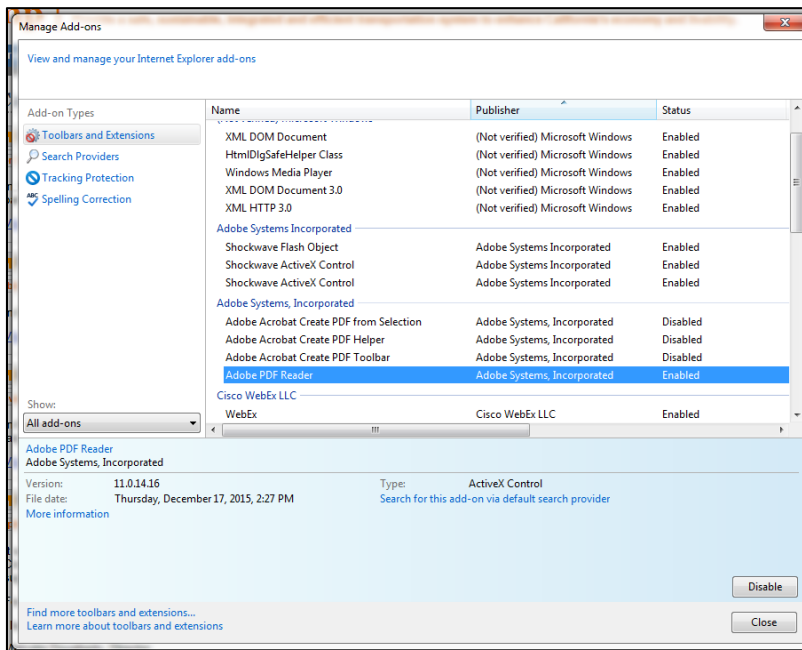

1. Click on Tools and select Manage Add-Ons.

2. Select All add-ons from the Show drop down menu:

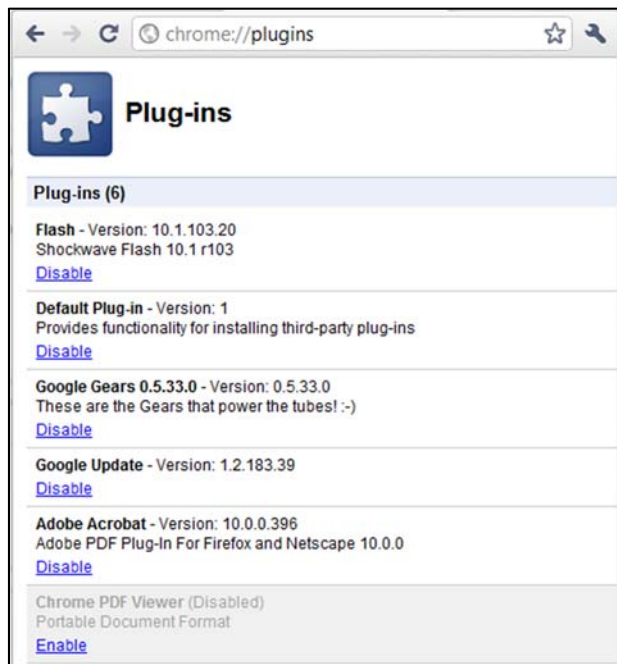

3. Under the Adobe Systems, Incorporated section, check to see if Adobe PDF Reader is enabled. If it's not then select it from the list and enable it.

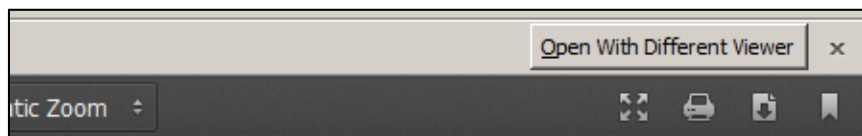

➤ **For Google Chrome, follow these steps to change your pdf viewer to Acrobat Reader.**

1. In the Chrome address bar, type chrome://plugins
2. Under Chrome PDF Viewer, click on Disable.
3. Under Adobe Acrobat or Adobe Reader, click on Enable. If Adobe Acrobat or Adobe Reader is not listed under your plug-ins, disabling the Chrome PDF Viewer should be sufficient.

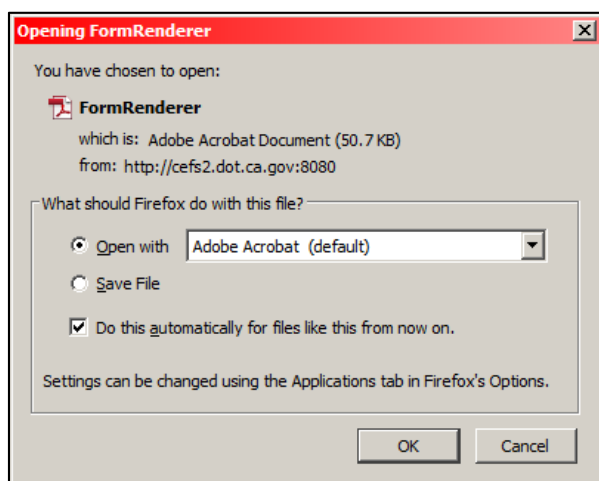

➤ **For Firefox, follow these steps to change your pdf viewer to Acrobat Reader.**

1. When you try to open the form in Firefox, there will be a button in the upper right corner of the page asking to "Open With a Different viewer."

2. After you click on the button, a dialog box will appear asking you to save or open the file.

3. Choose "Open with" and select Adobe Acrobat (default) in the drop down menu. Also check the box next to "Do this automatically for files like this from now on" and click on OK.
