Chapter 9 Civil Rights & Disadvantaged Business Enterprise

9.1 Introduction

As subrecipients of United States Department of Transportation (USDOT) funding, local agencies are required to comply with and enforce certain nondiscrimination requirements in the award and administration of USDOT assisted contracts and procurements. The information contained in this chapter has been extracted from other documents and should not be considered as a replacement or substitute for the laws, rules and regulations, agreements, circulars, or other guidance available. Extensive reference is made to the United States Code (USC) and Code of Federal Regulations (CFR).

Caltrans Division of Local Assistance (DLA) is responsible for developing policies and procedures to help local agencies implement a Title VI, ADA, and DBE Program. DLA has included checks and balances throughout its processes including legal review of major agreements and documents. Some of the following implemented processes are taken from various federal regulations for compliance with Title VI, ADA, and DBE.

9.2 Title VI of the Civil Rights Act of 1964 and Related Statutes

Title VI of the Civil Rights Act of 1964 prohibits discrimination based upon race, color, and national origin. Specifically, 42 USC 2000d states, “No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

In addition to Title VI of the Civil Rights Act of 1964, other nondiscrimination statutes afford legal protection under the Federal Highway Administration’s (FHWA) Title VI Program. These statutes include the following:

- Section 162(a) of the Federal-Aid Highway Act of 1973 (23 USC 324) (sex)
- Age Discrimination Act of 1975 (age)
- Section 504 of the Rehabilitation Act of 1973 (disability)
- Americans with Disabilities Act of 1990 (disability)

Two Presidential Executive Orders place further emphasis on the Title VI protections of race and national origin and are included in the scope of the FHWA’s Title VI Program:

1. Executive Order 12898, “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations,” directs federal agencies to develop strategies to address disproportionately high and adverse human health or environmental effects of their programs on minority and low-income populations. The order is also intended to promote nondiscrimination in federal programs substantially affecting human health and the environment, and to provide minority and low-income communities access to public information and an opportunity for
public participation in matters relating to human health or the environment.

2. Executive Order 13166, “Improving Access To Services For Persons with Limited English Proficiency,” directs federal agencies to evaluate services provided and implement a system that ensures that Limited English Proficiency (LEP) persons are able to meaningfully access the services provided, consistent with, and without unduly burdening, the fundamental mission of the local agency. Additionally, each federal agency shall ensure that recipients of federal financial assistance provide meaningful access to programs, services, and information to their LEP applicants and beneficiaries free of charge.

Taken together, these requirements define an overarching Title VI nondiscrimination program. Title VI and the additional nondiscrimination requirements are applicable to all programs and activities administered by a recipient, in addition to programs receiving federal financial assistance, due to the Civil Rights Restoration Act of 1987.

Nondiscrimination provisions apply to all programs and activities of federal-aid recipients, subrecipients, and contractors, regardless of tier (49 CFR 21).

**Title VI Nondiscrimination Statement**

The local agency shall develop a Title VI policy statement for signature by the head of the agency. The statement shall give reasonable guarantee that the programs administered by the agency are conducted in compliance with all Title VI nondiscrimination requirements. The signed statement shall be disseminated to the public via such methods as posting in public areas or on the agency’s website (49 CFR 21.7(b)).

**Assurances**

Local agencies sign assurances as part of Exhibit 4-C: Master Agreement with Caltrans. The Program Supplement Agreement (PSA) (see Exhibit 4-D: Sample – Program Supplement Agreement) for each project includes the local agency’s reaffirmation of the nondiscrimination assurances contained in the Master Agreement.

**Designation of a Title VI Coordinator**

The local agency shall designate a Title VI Coordinator who has a responsible position in the organization and easy access to the head of the agency. Identification of the Title VI Coordinator shall be disseminated to the public via such methods as posting in public areas or on the agency’s website (23 CFR 200.9(b)(1)).

**Title VI Complaint Procedures**

A local agency that receives federal financial assistance is required to adopt procedures that incorporate appropriate due process standards and provide for the prompt and equitable resolution of complaints alleging discrimination on basis of race, color, national origin, age, sex, or disability.

A Title VI complaint may be filed by any individual, group of individuals, or entity that believes they have been subjected to discrimination or retaliation based on their race, color,
national origin, age, sex, or disability. The complaint must be filed no later than 180 calendar days from the most recent date of the alleged act of discrimination unless the time for filing is extended. Complainants have the option to submit their complaint in any format (i.e., use of a complaint form, letter, etc.), but all complaints must be submitted in writing and signed by the complainant or their representative. Local agencies shall offer assistive services for LEP individuals or individuals with disabilities to accommodate alternative formats.

Complaints must include the complainant’s name, address, and phone number and be detailed to specify all issues and circumstances of the alleged discrimination. Complainants also have the right to file complaints with federal agencies that provide federal financial assistance to Caltrans or to seek private counsel.

Local agencies shall maintain a record of all Title VI complaints received that includes the date received; identification of each complainant by race, color, sex, or national origin; the nature of the complaint; the disposition (if applicable); the date of the disposition (if applicable); and other pertinent information.

Whenever possible, local agencies shall attempt to resolve Title VI complaints at the lowest possible level. Local agencies shall forward copies of all Title VI complaints to the respective Caltrans Equal Employment Opportunity Office in their district for review and disposition. (23 CFR 200.9(b)(3))

**Data Collection**

The local agency shall develop procedures for the collection of statistical data (race, color, national origin, age, sex, and disability) of participants in, and beneficiaries of, federally funded roadway projects, e.g., citizens impacted by relocation and participants attend the public hearing during an environmental review. In addition, the local agency shall analyze the data collected to determine the effectiveness of outreach methods to ensure that no group is excluded during the decision-making process or is not given an opportunity to voice their opinions or concerns. (23 CFR 200.9(b)(4))

**Title VI Training**

The local agency shall provide Title VI training for its managers, supervisors, and staff with frequent public contact every two years. (23 CFR 200.9(b)(9)).

**Limited English Proficiency**

The local agency is required to ensure programs and activities normally provided in English are accessible to LEP persons. Each local agency shall perform an annual assessment to determine if modifications are needed to their programs and activities to ensure meaningful access by LEP persons, culminating in the development of a language access plan. The local agency’s assessment, sometimes referred to as a “four-factor” analysis, shall be based on the following factors:

1. The number or proportion of LEP persons eligible to be served or likely to be encountered.

2. The frequency of LEP contacts.
3. The nature and importance of the programs, services, or activities provided.

4. The resources available for LEP persons.

For example, publications or public notices shall be made available in languages understood by the affected population. Interpreters shall be made available for LEP persons and for the hearing impaired (see LAPM Chapter 8: Public Hearings).

Language barriers may prohibit LEP persons from:

- Obtaining services and information related to transportation services, programs, and projects.
- Taking advantage of the transit system, which could affect their jobs and social opportunities.
- Understanding the benefits to which they are entitled when their home or business property is acquired through eminent domain.

More information on LEP can be found at: www.lep.gov.

**Dissemination of Title VI Information**

The local agency shall develop Title VI information for dissemination to the general public and, where appropriate, in languages other than English, pursuant to 23 CFR 200.9(b)(12). The purpose of the information shall be to communicate information about the public’s rights under Title VI. Sample information includes, but is not limited to, posters, brochures, flyers, “frequently asked questions” documents, web pages, and the like. Alternative formats shall be offered and made available at no cost to the requester, where applicable.

**Contracts and Agreements**

The local agency shall include the provisions indicated in Appendix A of Exhibit B, included as part of Exhibit 4-C: Master Agreement - Administering Agency-State Agreement for Federal-Aid Projects of the Local Assistance Procedures Manual, in contracts and agreements, between the local agency and the contractor, where applicable.

**Environmental**

Presidential Executive Order 12898, “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations,” is considered during the preliminary environmental investigation process and completion of the Preliminary Environmental Study (PES) Form. See Exhibit 6-A: Preliminary Environmental Study (PES), Instructions for Completing Exhibit 6-B: Instructions for Completing the Preliminary Environmental Study (PES), LAPM Chapter 6: Environmental Procedures, or refer to the local Assistance Environmental website: http://www.dot.ca.gov/hq/LocalPrograms/env.htm.

If a project requires that a Relocation Impact Study and/or Community Impact Assessment be conducted, the local agency shall follow the guidance set forth in the Standard Environmental Reference (SER). The SER is an online electronic reference that sets forth document content and format, as required by law or regulation, and recommended format, if not specified by law or

**Public Hearings and Public Involvement Meetings**
The attendance and concerns of LEP persons, persons with disabilities, minority populations, and low-income populations at public involvement meetings and hearings must be carefully documented to comply with Title VI, including statistics of participants by race and gender. Public hearing announcements must be made available in languages understood by the affected population. Public hearings shall be held at locations that are both geographically and structurally accessible.

**Right of Way**
On federal-aid projects, all Right of Way (R/W) activities are conducted in accordance with [LAPM Chapter 13: Right of Way](#), and the Caltrans Right of Way Manual, unless the local agency has adopted its own Caltrans-approved procedures. These manuals require that the public be provided with Title VI information and complaint procedures within each of the following R/W functions: appraisals, acquisitions, relocation assistance program, and property management. Both the DLAE and Caltrans District R/W staff monitor R/W activities on local projects to ensure compliance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

**Construction**
Federal-aid construction contracts must include provisions, which require compliance with Title VI. The specific contract provision language is included in the FHWA Form 1273 that is physically inserted in the federal-aid construction contract (see [LAPM Chapter 12: Plans, Specifications, and Estimate](#)).

**Title VI Monitoring**
The local agency shall actively monitor its programs, services, and activities to ensure compliance with Title VI requirements. For example, efforts should be made to communicate regularly with management and employees with frequent public contact to address Title VI questions and provide technical assistance and training. Policies and procedures should be evaluated periodically for Title VI compliance and incorporate Title VI requirements, where applicable. Demographic data should be collected and analyzed on an ongoing basis to better understand the populations being served by the local agency, as well as inform the delivery of services. Public meeting notices and other communications should be reviewed for LEP purposes as a matter of practice.

Local agency preliminary environmental studies, technical reports, environmental assessments, and Environmental Impact Statements provide for data collection and analysis on the demographics of neighborhoods and communities. Caltrans’ DLAEs and Environmental Specialists review the environmental documents to ensure that no disproportionate adverse impacts occur on minority and low-income neighborhoods or communities.
Title VI Compliance Reviews
Caltrans’ DLA conducts program reviews of subrecipients of federal financial assistance to ensure compliance with Title VI requirements pursuant to 23 CFR 200.9(b)(7). Reviews can occur at any time, and at Caltrans’ discretion. Reviews consist of a desk audit and/or on-site visit. Reviewers summarize observations and findings in a formal compliance review report that is provided to the local agency and the FHWA. Corrective action may be required, where applicable.

Plans, Specifications & Estimate Checklist
Exhibit 12-D: PS&E Checklist confirms the implementation of the mandatory requirements of FHWA Form 1273 such as Equal Employment Opportunity (EEO) certification, Disadvantaged Business Enterprise (DBE) provisions, and applicable wage rates. The local agency submits Exhibit 12-D to the DLAE along with the request for authorization to proceed with construction for federal-aid construction contracts.

Local Agency Construction Contract Administration Checklist
Exhibit 15-A: Local Agency Construction Contract Administration Checklist confirms that DBE and labor/EEO compliance requirements are performed and documented in the project files. Exhibit 15-A documents that the local agency will meet all of the requirements prior to the award of the construction contract (see LAPM Chapter 15: Advertise and Award Project).

Resident Engineer’s Construction Contract Administration Checklist
Exhibit 15-B: Resident Engineer’s Construction Contract Administration Checklist is completed by the local agency Resident Engineer. The purpose of this checklist is to assist the local agencies in administering federal-aid highway construction projects. It also provides a record that the EEO/Wage Rate/False Statements posters are being posted at specific locations, that employee interviews will be conducted in accordance with the Labor Compliance/EEO interview form, and that DBE requirements are met. The local agency submits Exhibit 15-B, along with the Award Package shortly after award of the construction contract (see LAPM Chapter 15).

Additional Resources for Title VI Implementation
You may access additional information on implementing Title VI (including potential Title VI issues, self-monitoring, good practices, and mitigation measures) in Caltrans’ Title VI Program Plan and Caltrans’ Title VI Guidelines available at http://www.dot.ca.gov/hq/bep/title_vi/t6_publications.htm.

In addition, Caltrans has produced a Title VI brochure that is available in ten different languages at: http://www.dot.ca.gov/hq/bep/title_vi/t6_publications.htm.

Section 504 of the Rehabilitation Act of 1973 (codified as 29 USC Subsection 794 et seq.) prohibits discrimination on the basis of disability in federally assisted programs or activities. The USDOT’s implementing regulations for Section 504 can be found at 40 CFR 27.
The Americans with Disabilities Act of 1990 (42 USC 12101 et seq.) is a broader civil rights statute that prohibits discrimination against people with disabilities in all areas of public life. Title II of the ADA applies specifically to state and local government entities, regardless of size or receipt of federal funding. Implementing regulations for Title II of the ADA can be found at 28 CFR 35.

The State of California has also adopted regulations—Section 54 of the California Civil Code—specifying that all buildings, structures, sidewalks, curbs, and related facilities constructed in California by the use of state, county or municipal funds, or the funds of any political subdivision of the state, shall be accessible to and usable by persons with disabilities.

Section 504/Americans with Disabilities Act (ADA) Implementation

Assurances

Administering agencies sign ADA assurances as part of their Exhibit 4-C: Master Agreement with Caltrans. The Program Supplement Agreement (PSA), (see Exhibit 4-D: Sample-Program Supplement Agreement for each project, includes the administering agency’s reaffirmation of the nondiscrimination assurances contained in the Master Agreement.

Self-Evaluation and Transition Plan

The local agency is required to complete a self-evaluation of its current programs, policies, and practices to identify barriers for people with disabilities pursuant to 28 CFR 35.105, 49 CFR 27.11(c)(2), and Section 504 of the Rehabilitation Act of 1973. The scope of the self-evaluation includes both architectural and administrative barriers. The local agency shall provide an opportunity for interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the self-evaluation process by submitting comments.

Critical areas to evaluate as part of a self-evaluation include, but are not limited to:

- Public right-of-way accessing government offices, medical facilities, downtown core areas, school zones, residential areas, and the like.
- Access to public buildings (permit/licensing offices, public meeting rooms, etc.)
- Rest areas, parks, and shared use trails.

All public entities are required to complete a self-evaluation. However, only those that employ 50 or more persons are required to maintain the self-evaluation on file and make it available for public inspection for three years.

Following completion of a self-evaluation, a local agency with 50 or more employees is required to develop a transition plan to prioritize removal of structural barriers for accessibility purposes. The transition plan shall accomplish the following:

- Identify physical obstacles in the public agency’s facilities that limit the accessibility of its programs or activities to individuals with disabilities.
- Describe in detail the methods that will be used to make the facilities accessible.
• Specify the schedule for taking steps necessary to upgrade pedestrian access to meet Section 504 and/or ADA requirements in each year following the transition plan.

• Indicate the official responsible for implementation of the plan.

Local agencies shall implement a system for periodically reviewing and updating self-evaluations and, if applicable, transition plans.

**Designation of an ADA Liaison Officer**

The local agency shall designate an ADA Liaison Officer who is responsible for coordinating the efforts of the local agency to comply with ADA requirements, including investigation of complaints. The local agency shall make available to the public the name and contact information (mailing address, telephone number, e-mail address, etc.) of its designated ADA Liaison Officer.

**Adoption of Grievance Procedures**

A local agency that employs 50 or more persons is required to adopt and publish procedures for resolving grievances arising under Title II of the ADA. Pursuant to 28 CFR 35.170, any individual who believes that he or she or a specific class of individuals has been subjected to discrimination on the basis of disability by a public entity may file a complaint within 180 days of the date of the alleged discrimination, unless the time for filing is extended by a local agency for good cause.

Grievance procedures set out a system for resolving complaints of disability discrimination in a prompt and fair manner. The grievance procedure shall include:

• A description of how and where a complaint under Title II of the ADA may be filed with the local agency.

• A statement notifying potential complainants that alternative means of filing a complaint, other than in writing, will be made available to individuals with disabilities.

• A description of the time frames and processes to be followed by the complainant and the local agency.

• Information on how to appeal an adverse decision.

• A statement of how long complaint files will be retained.

**Design**

State and local governments, regardless of whether they receive federal financial assistance, are required to comply with Federal [2010 ADA Standards](#), Title 24 of the California Code of Regulations (which contains California building regulations), or local code, whichever provides the greatest access. Private-funded improvements within the public Right of Way are also required to comply with the federal [2010 ADA Standards](#) or with Title 24, whichever code offers the greatest access or protection to individuals with disabilities. All new and altered pedestrian facilities such as, but not limited to, highway rest area facilities, sidewalks, crosswalks, pedestrian overpasses, underpasses, and ramps shall be made accessible to persons with disabilities in accordance with federal and state accessibility standards on all local agency federal-aid projects. Facility maintenance does not constitute an alteration (see
LAPM Chapter 11: Design Guidance for what constitutes an alteration triggering accessibility requirements).

**Certification**

Local agencies certify compliance with federal, state, and local ADA regulations, laws, and codes in the Exhibit 12-D: PS&E Checklist.

**ADA Monitoring**

**Local Agency ADA Annual Certification Form**

Each local agency must provide the Caltrans DLAE with a completed Exhibit 9-C: Local Agency ADA Annual Certification Form by June 30 of each year for the following federal fiscal year (October 1 to September 30). The form must be received prior to submitting a Request for Authorization to proceed with a federal-aid project.

Exhibit 9-C includes:

1. Designated ADA Liaison Officer information (name, address, phone number, and e-mail address).

2. Certification that the local agency has an updated self-evaluation and transition plan, if applicable. If the local agency does not have an updated self-evaluation and transition plan, then the local agency provides an estimated date that they will have one.

3. Certification of the adoption of a grievance procedure. If the local agency does not have a grievance procedure, then the local agency provides an estimated date that they will have one.

**Field Reviews**

During the field review, an agreement is reached among all interested parties (local agency, DLAE, FHWA) on the general design features and exceptions for the project. ADA deficiencies are discussed and agreed upon at this time (see LAPM Chapter 7: Field Review).

**Plans, Specifications & Estimate**

Local agencies certify that their project’s Plans, Specifications & Estimate (PS&E) complies with all applicable federal and state regulations and codes (see Exhibits 12-C: PS&E Certification and Exhibit 12-D: PS&E Checklist, and LAPM Chapter 12: Plans, Specifications & Estimate).

**Final Inspection**

The local agency conducts the final inspection and certifies on the Exhibit 17-C: Final Inspection Form that the project was constructed in accordance with the scope and description of the project authorization document and that all federal and state requirements have been met. The DLAE reviews the job site and verifies completion on Exhibit 17-C (see LAPM Chapter 17: Project Completion).
9.4 **Equal Employment Opportunity (EEO) Contractor Compliance**

The current Federal Transportation Act, 23 USC 140(a), and implementing regulations of 23 CFR 230, require that the local agency receiving federal financial assistance assure that employment in connection with federal highway construction projects is provided without regard to race, color, religion, sex, national origin, age or disability.

The local agency is also required to include notification of a federal-aid contractor’s EEO responsibilities in the advertised contract specifications. The local agency shall maintain and make available apprenticeship, skill improvement or other upgrading programs, which provide equal opportunity for training and employment without regard to race, color, religion, sex, national origin, age or disability.

Federal regulation 23 CFR 635.107 sets forth FHWA policy relating to federal-aid highway contract letting, and requires equal opportunity for DBE participation. Other sections of the CFR include nondiscriminatory bidding procedures, subcontractor and contractor responsibilities, labor, employment and Native American Indian preference provisions, payroll and statements of wages paid, and contract termination procedures.

Form FHWA 1273, Required Contract Provisions for Federal-Aid Construction Contracts, is a standard federal form containing required contract provisions and proposal notices and is required to be physically inserted into each federal-aid highway construction contract and subcontracts (at any tier). When a contractor signs a federal-aid contract of $10,000 or more, the nondiscrimination provisions in the Form FHWA 1273 constitutes the contractor’s Equal Employment Opportunity/Affirmative Action Program standards for that contract.

**EEO Implementation**

**Assurances**

Local agencies sign assurances as part of their Master Agreement with Caltrans. Appendix A to Exhibit B of the Master Agreement includes nondiscrimination in the selection and retention of sub-applicants and the prohibition of discrimination in employment practices.

**Required Federal Contract Provisions**

Local agencies shall physically insert the Form FHWA 1273 into the contract document. Local agencies are aware that contractor’s noncompliance with the EEO specifications in the Form FHWA 1273 may be considered a breach of contract for which payment may be withheld, or the contract terminated (see LAPM Chapter 12: Plans, Specifications & Estimate).

**Construction**

Federal-aid prime contractors and subcontractors employment practices in the areas of recruitment and selection decisions (hiring, promotions, terminations, training) are to be conducted without regard to race, color, religion, sex, national origin, age or disability.

The local agency’s resident engineer should be cognizant of the contractual requirement and monitor the contractor for compliance. Specifically, one of the resident engineer’s area of concern should be whether discriminatory practices take place, particularly in the hiring, firing,
training, promotion, and utilization of employees (see LAPM Chapter 16: Administer Construction Contracts, Section 16.12: Equal Employment Opportunity).

**EEO Monitoring**

The three checklists listed in Section 9.2: Nondiscrimination Title VI of the Civil Rights Act of 1964 and Related Statutes serve to assist local agencies in implementing EEO and are monitoring tools for DLAEs to ensure that EEO requirements are met. In addition, DLA performs periodic EEO process reviews that include reviews of the DLAE, local agency, and contractor.

Caltrans OBEO includes local agency contracts in their compliance reviews of federal-aid contractors.

**EEO Reporting**

The federal-aid contractor on federal-aid construction contracts that are active during the last full pay period in July complete Exhibit 16-O: Federal-Aid Highway Construction Contractor’s Annual EEO Report.

### 9.5. **Disadvantaged Business Enterprise (DBE)**

**Background**

Caltrans is required under 49 CFR 26 to administer a Disadvantaged Business Enterprise (DBE) Program. The DBE Program is intended to ensure a level playing field and foster equal opportunity in federal-aid contracts. As a result, Caltrans periodically conducts studies that examine the availability, disparity, and discrimination of disadvantaged businesses in the transportation construction and engineering industry in California. Past studies have determined that discrimination continues to exist in the transportation contracting industry. When establishing the overall DBE goal, Caltrans must include the level of DBE participation that local agencies could contribute. This will include an assessment of the subcontracting opportunities for specific items of work and the DBE availability for specific items of work. In other words, that level of subcontracting opportunities that DBEs could reasonably be expected to compete for on a contract.

**DBE Definitions**

**Calendar Days** — Unless stated otherwise, days in this chapter is understood to mean calendar days which includes weekends and holidays.

**Disadvantaged Business Enterprise (DBE)** — A for-profit small business concern that is at least 51 percent owned and controlled by one or more socially and economically disadvantaged individuals. One or more such individuals must also control the management and daily business operations. These individuals must be citizens (or lawfully admitted permanent residents) of the United States and (1) any individual who a recipient finds to be a socially and economically disadvantaged individual on a case-by-case basis, or (2) who are either African Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, Subcontinent
Asian Americans, (persons whose origin are from India, Pakistan, Bangladesh, Bhutan, Maldives Islands, Nepal or Sri Lanka), Women, or any other group found to be socially and economically disadvantaged by the Small Business Administration (See 49 CFR 26).

**Race-Conscious Measure or Program** — One that is focused specifically on assisting only DBEs. The use of contract goals is the primary example of a race-conscious measure in the DBE program.

**Race-Neutral Measure or Program** — A race-neutral measure or program is one that, while benefiting DBEs, is not solely focused on DBE firms. For example, small business outreach programs, technical assistance programs, and prompt payment clauses can assist a wide variety of small businesses not just DBEs. For purposes here, race-neutral includes gender neutrality.

**Recipient** — In this section the recipient of federal funds refers to Caltrans.

**Small Business Concern** — Small Business Concern means with respect to firms seeking to participate as DBEs in federal-aid contracts, a Small Business Concern as defined pursuant to Section 3 of the Small Business Act and Small Business Administration regulations implementing it (13 CFR 121) that also does not exceed the cap on average annual gross receipts specified in 49 CFR 26.65(b).

**Statewide Overall DBE Goal** — As required by Title 49 CFR 26, Caltrans has established a statewide overall DBE goal. This is the average level of participation that Caltrans would expect DBEs to achieve in California. In order to ascertain whether the statewide overall DBE goal is achieved, Caltrans will track DBE participation on all federal-aid contracts.

**Sub-recipient** — In this section sub-recipient refers to the Local Agency receiving federal funds.

**DBE Program Responsibilities**

**FHWA Responsibilities**
The FHWA administers the payment of federal-aid highway funds to recipients: states, counties, cities, and other agencies for transportation-related projects. The FHWA is responsible for monitoring these agencies for compliance with Title VI and other aspects of the Civil Rights Acts of 1964, 1968, and 1973 concerning nondiscrimination in administration of federal funds.

**Caltrans Responsibilities**

**The Office of Business and Economic Opportunity (OBEO)**

- Administer (Caltrans DBE Program Plan).
- Maintain a directory of certified DBE contractors.
- Establish statewide overall DBE goal and race-neutral and race-conscious component projections.
Division of Local Assistance (DLA)

- Provide technical assistance to the districts.
- Monitor local agency compliance with DBE program requirements by conducting process reviews. The FHWA and the district are invited to participate in these process reviews.
- Assemble statewide local agency DBE commitment, final utilization, and other information for reports to OBEO.
- Provide training for district and local agency staff.

District Local Assistance Engineer (DLAE)

- Monitor local agency compliance with DBE program requirements by participating in process reviews.
- Ensure that local agencies with federal-aid contracts submit an Exhibit 9-A: DBE Implementation Agreement for Local Agencies form.
- Review and approve the Exhibit 9-B: Local Agency DBE Annual Submittal Form for local agencies that award federal-aid contracts during the Federal Fiscal Year (FFY).
- Serve as the focal point for advice and assistance to the local agencies on DBE matters.
- Ensure that Exhibit 10-O2: Consultant Contract DBE Commitment (Construction Contracts) are reported to the DLA in a timely manner.
- Ensure that the Exhibit 17-F: Final Report-Utilization of Disadvantaged Business Enterprise (DBE) and First-Tier Subcontractors is reported to the DLA.
- Provide DBE oversight of local agencies pursuant to the LAPM.
- Review at least one complete PS&E package (including DBE requirements) per agency, per year. If deficiencies are discovered, more frequent reviews should be conducted and a corrective action plan is to be submitted by the local agency for the DLAE’s approval.
- Maintain a file with an index of all local agency’s Exhibit 9-A: DBE Implementation Agreement for Local Agencies and Exhibit 9-B: Local Agency DBE Annual Submittal Form Information from these forms is entered into LP2000.

Local Agency Responsibilities

Local agency responsibilities are detailed in Section 9.6: Local Agency Responsibilities Under Caltrans DBE Program Plan of this chapter, and the responsibilities include:

- Submit the Exhibit 9-A and amendments to the DLAE.
- Designate a DBE Liaison Officer, accountable to the Chief Executive Officer of the local agency, to administer the Caltrans DBE Program as it pertains to local agencies.
- Ensure prompt and full payment to the prime consultant/contractor and subconsultants/subcontractors in compliance with the prompt payment clauses of the contract.
Ensure Exhibit 10-O2: Consultant Contract DBE Commitment and Exhibit 15-G: Construction Contract DBE Commitment are reported to the DLAE within 30 days of contract execution.

Ensure that Exhibit 17-F: Final Report-Utilization of DBE and First-Tier Subcontractors is reported by the prime contractor or consultant upon completion of the contract.

9.6 LOCAL AGENCY RESPONSIBILITIES UNDER CALTRANS DBE PROGRAM PLAN

Local agency recipients of federal financial assistance shall comply with all the elements of Title 49 CFR 26 entitled Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs. These provisions apply to all federal-aid transportation projects. Local agency responsibilities are detailed in the Caltrans DBE Program Plan. A copy of this plan is available from the DLA DBE website at: http://www.dot.ca.gov/hq/LocalPrograms/DBE_CRLC.html#.

As an initial step, each local agency shall submit Exhibit 9-A form to formally acknowledge the local agency’s commitment to implement the Caltrans DBE program, and to comply with all the prescribed responsibilities detailed in the LAPM.

Each local agency shall also submit the Exhibit 9-B: Local Agency DBE Annual Submittal Form. This annual form provides information for the upcoming Federal Fiscal Year (FFY), which will include:

1. Identification of the DBE Liaison Officer
2. Plan of race-neutral measures to implement for the forthcoming FFY
3. Prompt payment provisions to be used in contracts
4. Monitoring and enforcement mechanisms to ensure that subcontractors are promptly paid

DBE Implementation Agreement for Local Agencies

Exhibit 9-A: DBE Implementation Agreement for Local Agencies form must be completed and submitted to the DLAE for execution by each agency before a request for authorization is processed. This agreement will need to be signed by a representative who is authorized by the governing body to take such action.

Some of the elements of the Agreement are highlighted below.

Objective/Policy Statement

Each agreement contains a policy statement expressing a commitment to the Caltrans DBE Program, stating its objectives, and outlining responsibilities for its implementation. Each local agency will circulate the statement throughout its organization and to the DBE and non-DBE business communities that perform work on its federal-aid contracts.
Local Agency DBE Annual Submittal Form
Each local agency must provide the DLAE with a completed Exhibit 9-B, by June 30 of each year for the following Federal Fiscal Year. This form must be received prior to submitting a Request for Authorization to proceed with a federal-aid project.

This form will include:

1. Designated DBE Liaison Officer Information (name, address, phone number, and e-mail address).
2. Detail of planned race-neutral measures to be implemented as required by 49 CFR 26.51 and as outlined in the local agency’s Exhibit 9-A.
3. The local agency’s choice for method of Prompt Payment of Withheld Funds to Subcontractors, as well as a brief explanation of the monitoring and enforcement mechanisms the local agency has in place to ensure that all subcontractors, including DBEs, are promptly paid.

Overall Statewide DBE Goal
The overall statewide DBE goal is obtained through race-conscious and race-neutral components. The overall statewide goal is shown on the DLA DBE website at: http://www.dot.ca.gov/hq/LocalPrograms/DBE_CRLC.html

Race-Neutral Component
The race-neutral component of the overall statewide DBE goal is accomplished when the prime consultant is a DBE firm or when DBE participation exceeds the contract DBE goal. Examples of race-neutral DBE participation are:

- A DBE wins a prime contract through customary competitive procurement procedures.
- A DBE is awarded a subcontract on a prime contract that does not carry a DBE goal.
- The DBE commitment exceeds the DBE contract goal.

Race-neutral means include, but are not limited to, the following:

- Arranging solicitations, times for the presentation of bids, quantities, specifications, and delivery schedules in ways that facilitate DBE and other small business participation (e.g., unbundling large contracts to make them more accessible to small businesses, and requiring or encouraging prime contractors to subcontract portions of work that they might otherwise perform with their own forces).
- Providing assistance in overcoming limitations such as inability to obtain bonding or financing (e.g., by such means as simplifying the bonding process, reducing bonding requirements, eliminating the impact of surety costs from bids, and providing services to help DBEs and other small businesses obtain bonding and financing).
- Providing technical assistance and other services.
- Carrying out information and communications programs on contracting procedures and specific contract opportunities (e.g., ensuring the inclusion of DBEs and other small
businesses on recipient mailing lists for bidders; ensuring the dissemination to bidders on prime contracts of lists of potential subcontractors, provision of information in languages other than English, where appropriate).

- Implementing a supportive services program to develop and improve immediate and long-term business management, record keeping, and financial and accounting capabilities for DBEs and other small businesses.

- Providing services to help DBEs and other small businesses, improve long-term development, increase opportunities to participate in various types of work, handle increasingly significant projects, and achieve eventual self-sufficiency.

- Establishing a program to assist new start-up firms, particularly in fields in which DBE participation has historically been low.

- Ensuring distribution of the DBE directory through print and electronic means to the widest feasible universe of potential prime contractors.

- Assisting DBEs and other small businesses to develop their capability to utilize emerging technology and conduct business through electronic media.

**Race-Conscious Component**

The use of contract goals is the primary example of a race-conscious measure in the DBE program. Local agencies must establish contract goals on each federal-aid contract where there are subcontractable opportunities for DBEs.

**DBE Liaison Officer**

Each local agency must designate a Disadvantaged Business Enterprise Liaison Officer (DBELO) who shall have direct independent access to the local agency’s Chief Executive Officer concerning DBE program matters. This person shall be responsible for the duties as described in the *Exhibit 9-A: DBE Implementation Agreement for Local Agencies*. Annually, the DBELO designation will be reported to Caltrans when the local agency completes its *Exhibit 9-B: Local Agency DBE Annual Submittal Form*.

**Required Contract Clauses**

These and other requirements of this chapter are included in the *Exhibit 12-G: Required Federal-aid Contract Language*.

**Contract Assurance**

DBE regulations require the following contract assurance statement in every federal-aid contract and subcontract:

- The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract, or such other remedy as recipient deems appropriate.
**Prompt Progress Payment to Subcontractors**

Attention is directed to Section 7108.5 of the California Business and Professions Code, which requires a prime contractor or subcontractor to pay any subcontractor not later than seven (7) days of receipt of each progress payment, unless otherwise agreed to in writing.

These requirements apply to both DBE and non-DBE subcontractors.

**Prompt Payment of Withheld Funds to Subcontractors**

Federal Regulation (49 CFR 26.29) requires one of the following three methods be used in federal-aid contracts to ensure prompt and full payment of any retainage kept by the prime contractor or subcontractor to a subcontractor:

1. The local agency may decline to hold retainage from prime contractors and prohibit prime contractors and subcontractors from holding retainage from subcontractors.

2. The local agency may decline to hold retainage from prime contractors and include a contract clause, obligating the prime contractor and subcontractors to make prompt and full payment of any retainage kept by the prime contractor or subcontractor to all subcontractors within thirty (30) days after the subcontractor’s work is satisfactorily completed.

3. The local agency may hold retainage from the prime contractor and provide for prompt and regular incremental acceptances of portions of the contract, pay retainage to prime contractors based on the acceptances and include a contract clause obligating the prime contractor and subcontractors to pay all retainage owed to all subcontractors for satisfactory completion of the accepted work within thirty (30) days of local agency payment to the contractor.

In the above methods, a subcontractor’s work is satisfactorily completed when all tasks called for in the subcontract have been accomplished and documented as required by the agency. The work of a subcontractor covered by that acceptance is deemed to be satisfactorily completed, when an agency has made an incremental acceptance of a portion of the contract work. Annually, the local agencies choose one of the above three methods to ensure prompt pay. The local agency’s choice will be reported to Caltrans when it completes Exhibit 9-B: Local Agency DBE Annual Submittal Form.

9.7 **DBE Participation on the Contract**

**Participation Opportunities**

The local agency should structure its contract in a manner that provides opportunities for DBE participation. Participation by DBEs is possible during the Preliminary Engineering, Environmental, Final Design, Right of Way, and Construction phases of the project, and includes work as sub-consultants, subcontractors, suppliers, vendors and truckers.

**DBE Contract Goals**

A DBE contract goal is a percentage of the total contract amount that is expected to be performed by certified DBE firms. Local agencies may use DBE contract goals only on those
federal-aid contracts that have subcontracting opportunities. The DBE contract goal will vary depending on the type of work involved, the location of the work, and the availability of DBEs for the work of the particular contract.

In some cases, the contract goal may be zero due to the extremely limited subcontracting opportunities for DBEs, the lack of interested DBEs in the geographic area in which work is to be performed, or other reasons. Documentation is required for verifying that the local agency has determined that a zero percent DBE contract goal is appropriate.

In some cases no contract goal may be warranted (which is different from zero percent goal) as, for Emergency Relief, Sole-source, Nonprofit, or Force Account contracts.

The local agency must determine the DBE contract goal based on the work performed and the availability of certified DBEs. DBE contract goals must be consistent with the following policies:

- DBE contract goals are established in order to achieve fair DBE participation. See Exhibit 9-D: DBE Contract Goal Methodology.
- The project analysis starts with the availability of certified DBE contractors to perform the items of work. The contractible items of work are evaluated by the local agency in the light of the project type and size, and normal industry contracting practices.
- All contract bidders or proposers are required to meet the DBE contract goal, or document that they made adequate Good Faith Efforts (GFE) to meet the goal if they did not succeed in obtaining the DBE participation specified in the contract specifications. See Exhibit 9-E: Sample Evaluation of Good Faith Efforts.

Local Agency Bidder or Proposer DBE Commitment and DBE Information Forms

On construction contracts, the Exhibit 15-G: Construction Contract DBE Commitment must be provided by each bidder and included in the bid. On design and engineering related consultant contracts, Exhibit 10-O1: Consultant Proposal DBE Commitment must be included in each consultant’s proposal and the Exhibit 10-O2: Consultant Contract DBE Commitment form must be included in best qualified consultant’s executed consultant contract. Exhibits 15-G, Exhibit 10-O1 and Exhibit 10-O2 must include the names, addresses and phone numbers of DBE firms that will participate, and a complete description of work or supplies to be provided by each. Exhibits 15-G and Exhibit 10-O2 must also include the dollar value of each DBE work item or service to be performed (Exhibit 10-O1 will not have the dollar values since they are not known prior to consultant contract negotiation).

When 100% of a contract item of work is not to be performed or furnished by a DBE, a description of the exact portion of that work to be performed or furnished by that DBE should be included in the DBE information, including the planned location of that work. A bidder certified as a DBE should describe the work it has committed to perform with its own forces, as well as any other work that it has committed to be performed by DBE subcontractors, suppliers, and trucking companies. The bidder or proposer is required to provide written confirmation from each DBE participating in the contract. A copy of a DBE’s quote will serve as written confirmation that the DBE is participating in the contract. If a DBE is participating as a joint venture partner, the bidder or proposer is encouraged to submit a copy of the joint venture agreement. Exhibit 15-G or Exhibit 10-O2 shall be included in the construction or consultant
contract whether or not there is a DBE goal on the contract. The local agency shall submit this form to the DLAE within 30 days of contract execution for timely reporting. The purpose of these forms is to capture all DBE participation, or in instances when there is no DBE contract goal, DBE participation acquired through normal contracting procedures as required under 49 CFR 26.

**Final Report**

Upon completion of the construction or consultant contract, regardless of whether DBE participation was obtained, a summary of the DBE records shall be prepared, certified correct, and submitted on the *Exhibit 17-F: Final Report-Utilization of DBE and First-Tier Subcontractors*, or equivalent by the contractor to the local agency showing total dollars paid to each subcontractor and supplier whether DBE or non-DBE. *Exhibit 17-F* is reviewed by the local agency and certified as complete and accurate. The information in this report is required by the DBE Program and the FHWA to demonstrate DBE participation on local agency projects.

**Consultant Contracts**

The local agency must send the original plus one copy of the completed *Exhibit 17-F: Final Report-Utilization of DBE and First-Tier Subcontractors* with the final invoice to the DLAE within thirty (30) days after completion of the contract (see LAPM Chapter 10: Consultant Selection).

**Construction Contracts**

The local agency must send the original copy plus one copy of the completed *Exhibit 17-F* to the DLAE as part of its Report of Expenditure package before final payment (see LAPM Chapter 17: Project Completion).

**Counting DBE Participation**

Actual payment to subcontractors that are certified DBEs performing a commercially useful function will be counted as DBE participation. If the prime contractor is a qualified DBE, his/her work is reported and counted.

**Work Performed by DBEs**

When a DBE participates in a contract, count only the value of the work actually performed by the DBE.

- Count the entire amount of that portion of a contract that is performed by the DBE's own forces. Include the cost of supplies and materials obtained by the DBE for the work of the contract, supplies purchased or equipment leased by the DBE (except supplies and equipment the DBE subcontractor purchases or leases from the prime contractor or its affiliate).

- Count the entire amount of fees or commissions charged by the DBE firm for providing a bona fide service, such as professional, technical, consultant, or managerial services, or for providing bonds or insurance specifically required for the performance of a federal-aid contract, provided that the local agency determines the fee to be reasonable and not excessive as compared with fees customarily allowed for similar services.
• When a DBE subcontracts part of the work of its contract to another firm, the value of
the subcontracted work may be counted towards DBE participation only if the DBE’s
subcontractor is itself a DBE. Work that a DBE subcontracts to a non-DBE firm does not
count toward DBE participation.

Joint Venture
When a DBE performs as a participant in a joint venture, count a portion of the total dollar
value of the contract equal to the distinct, clearly defined portion of the work of the contract that
the DBE performs with its own forces towards the DBE participation. The DBE’s share of each
of the following must commensurate with its ownership interest in the joint venture: capital
contribution, control, management, risks and profits.

Commercially Useful Function
Count expenditures to a DBE contractor, only if the DBE is performing a commercially useful
function on that contract. The following examples explain what is considered to be performing
a commercially useful function:

• A DBE performs a commercially useful function when it is responsible for execution of
the work of the contract and is carrying out its responsibilities by actually performing,
managing, and supervising the work involved. To perform a commercially useful
function, the DBE must also be responsible with respect to materials and supplies used
on the contract for negotiating price, determining quality and quantity, ordering the
material and installing (where applicable), and paying for the material itself. To
determine whether a DBE is performing a commercially useful function, the local agency
must evaluate the amount of work subcontracted; industry practices; whether the
amount the firm is to be paid under the contract is commensurate with the work it is
actually performing and the DBE credit claimed for its performance of the work; and
other relevant factors.

• A DBE does not perform a commercially useful function if its role is limited to that of an
extra participant in a transaction, contract, or project through which funds are passed in
order to obtain the appearance of DBE participation. In determining whether a DBE is
such an extra participant, the local agency must examine similar transactions,
particularly those in which DBEs do not participate.

• If a DBE does not perform or exercise responsibility for at least 30% of the total cost of its
contract with its own work force, or the DBE subcontracts a greater portion of the work
of a contract than would be expected on the basis of normal industry practice for the
type of work involved, one must presume that it is not performing a commercially
useful function.

• When a DBE is presumed not to be performing a commercially useful function, as
provided in the previous bullet, the DBE may present evidence to rebut this
presumption. The local agency’s determination as to whether the firm is performing a
commercially useful function should be based upon the type of work involved and
normal industry practices.
Local agencies’ decision on commercially useful function matters are subject to review by the DLAE.

**DBE Trucking**

Use the following factors in determining whether a DBE trucking company is performing a commercially useful function:

- The DBE must be responsible for the management and supervision of the entire trucking operation for which it is getting credit on a particular contract, and there cannot be a contrived arrangement for the purpose of counting DBE participation.
- The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.
- The DBE receives credit for the total value of the transportation services it provides on the contract using trucks it owns, insures, and operates using drivers it employs.
- The DBE may lease trucks from another DBE firm including an owner-operator, who is certified as a DBE. The DBE who leases trucks from another DBE receives credit for the total value of the transportation services the lessee DBE provides on the contract.
- The DBE may also lease trucks from a non-DBE firm, including an owner-operator. The DBE who leases trucks from a non-DBE is entitled to credit only for the fee or commission it receives as a result of the lease arrangement. The DBE does not receive credit for the total value of the transportation services provided by the lessee, since these services are not provided by a DBE.

**Materials and Supplies**

Count expenditures with DBEs for materials or supplies toward DBE participation as provided in the following:

- If the materials or supplies are obtained from a DBE manufacturer, count 100% of the cost of the materials or supplies toward DBE participation.
  
  **Note:** For purposes of counting DBE participation, a manufacturer is a firm that operates or maintains a factory or establishment that produces on the premises, materials, supplies, articles, or equipment required under the contract and of the general character described by the specifications.

- If the materials or supplies are purchased from a DBE regular dealer, count 60% of the cost of the materials or supplies toward DBE participation.
  
  **Note:** For purposes of counting DBE participation, a regular dealer is a firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles or equipment of the general character described by the specifications and required under the contract are bought, kept in stock, and regularly sold or leased to the public in the usual course of business.
To be a regular dealer, the firm must be an established business that regularly engages, as its principal business and under its own name in the purchase and sale or lease of the products in question.

A person may be a regular dealer in such bulk items as petroleum products, steel, cement, gravel, stone, or asphalt without owning, operating, or maintaining a place of business, if the person both owns and operates distribution equipment for the products. Any supplementing of regular dealers' own distribution equipment shall be by a long-term lease agreement and not on an ad hoc or contract-by-contract basis. Packagers, brokers, manufacturers' representatives, or other persons who arrange or expedite transactions are not considered regular dealers for purposes of counting DBE participation. With respect to materials or supplies purchased from a DBE, which is neither a manufacturer nor a regular dealer, count the entire amount of fees or commissions charged for assistance in the procurement of the materials and supplies, fees or transportation charges for the delivery of materials or supplies required on a job site toward DBE participation, provided the local agency determines the fees to be reasonable and not excessive as compared with fees customarily allowed for similar services. However, do not count any portion of the cost of the materials and supplies themselves toward DBE participation.

A lease must indicate that the DBE has exclusive use of and control over the truck. This does not preclude the leased truck from working for others during the term of the lease with the consent of the DBE, so long as the lease gives the DBE absolute priority for use of the leased truck.

**DBE Participation Not Counted**

If a firm is not currently certified as a DBE at the time of the execution of the contract, do not count the firm's participation, except as provided for under Decertification of this section.

Do not count the dollar value of work performed under a contract with a firm after it has ceased to be certified. Do not count the participation of a DBE subcontractor toward the prime contractor's DBE achievements or the local agency’s overall participation until the amount being counted toward the participation has been paid to the DBE.

**Apparent Lack of Control**

In order for a firm to become a certified DBE, it should meet the various requirements prescribed in the CFR, as administered by the California Unified Certification Program (CUCP). The DBE must possess the power to direct or cause (49 CFR 26.71(d)).

Some situations may arise where the work to be performed by the DBE is being performed by someone else. The local agency will have to use discretion on when to investigate or report apparent cases of fraud to Caltrans. Caution is needed because those involved in performing the work may legitimately be doing so.
The three areas are as follow:

1. Individuals who are not socially and economically disadvantaged may be involved in a DBE firm as owners, managers, employees, stockholders, officers, and/or directors. Such individuals must not, however, possess or exercise the power to control the firm, or be disproportionately responsible for the operation of the firm.

2. The socially and economically disadvantaged owners of the firm may delegate various areas of the management, policymaking, or daily operations of the firm to other participants in the firm, regardless of whether these participants are socially and economically disadvantaged individuals. Such delegations of authority must be revocable. The socially and economically disadvantaged owners must retain the power to hire and fire any person to whom such authority is delegated. The managerial role of the socially and economically disadvantaged owners in the firm's overall affairs must be, such that the recipient can reasonably conclude that the socially and economically disadvantaged owners actually exercise control over the firm's operations, management, and policy.

3. The socially and economically disadvantaged owners must have an overall understanding of, and managerial, technical competence and experience directly related to the type of business in which the firm is engaged and the firm's operations. The socially and economically disadvantaged owners are not required to have experience or expertise in each critical area of the firm's operations, or to have greater experience or expertise in a given field than managers or key employees. The socially and economically disadvantaged owners must have the ability to intelligently and critically evaluate information presented by other participants in the firm's activities; to use this information to make independent decisions concerning the firm's daily operations, management, and policymaking. Generally, expertise limited to office management, administration, or bookkeeping functions unrelated to the principal business activities of the firm is insufficient to demonstrate control.

**DBE Eligibility**

The CUCP certifies and determines the eligibility of DBE consultant and contractor firms. The CUCP can also remove the eligibility of a firm and issue a written notice of ineligibility. A directory of certified DBE firms is available from the Caltrans Civil Rights, Certification Unit website at: [http://www.dot.ca.gov/hq/bep/find_certified.htm](http://www.dot.ca.gov/hq/bep/find_certified.htm)

**Certification**

A potential DBE may request certification from Caltrans by requesting an application form at:

Department of Transportation  
*Office of Business and Economic Opportunity*  
Certification Unit  
1823 14th Street, MS-79  
Sacramento, CA 95811  
[DBE_Certification@dot.ca.gov](mailto:DBE_Certification@dot.ca.gov)
Decertification
If a DBE firm becomes ineligible in the middle of a contract (i.e., due to decertification), only that portion of work performed while certified will count toward DBE participation claimed by the local agency and Caltrans. If the DBE is already under contract prior to becoming ineligible, its participation is eligible to be counted toward meeting the contract goal by the prime contractor/consultant.

If the DBE’s ineligibility is caused solely by its having exceeded the size standard during the performance of the contract, the local agency may continue to count its participation on that contract toward overall and contract participation.

Appeal
When the CUCP makes an administratively final removal of a firm’s eligibility, the firm may appeal the removal to the DOT under Section 26.89 of 49 CFR 26. Caltrans will provide information for an appeal with the removal of eligibility.

9.8 Good Faith Efforts
Note: For purposes of this section bidder also includes proposer, contractor includes consultant and subcontractor includes subconsultant.

When a Local Agency establishes a DBE contract goal on a federal-aid contract, a bidder must, in order to be responsive, make Good Faith Efforts (GFEs) to meet the DBE contract goal. The bidder can meet this requirement in either of two ways. First, the bidder can meet the goal, documenting commitments for participation by DBE firms sufficient to meet the goal. Second, if the bidder does not meet the goal, the bidder can provide documentation in support of their adequate GFEs. This means that the bidder must show that they took all necessary and reasonable measures to achieve the DBE contract goal. The bidder could reasonably be expected to obtain maximum possible DBE participation even if they were not fully successful in meeting the DBE contract goal. A Local Agency shall require a bidder to meet the DBE contract goal or meet the burden of proof of GFEs in order to be awarded a contract. In any situation in which a DBE contract goal has been established, the use of GFEs must be allowed.

Each Local Agency must make a fair and reasonable judgment whether a bidder that did not meet the set goal made adequate GFEs. It is important to consider the quality, quantity, and intensity of the different kinds of efforts that the bidder has made. The efforts employed by the bidder should be those that one could reasonably expect a bidder to take if the bidder were actively and aggressively trying to obtain DBE participation sufficient to meet the DBE contract goal. Mere pro forma efforts are not GFEs to meet the DBE contract requirements. We emphasize that the local agency’s determination concerning the sufficiency of the bidder’s GFEs is a judgment call and meeting quantitative formulas is not required. Caltrans strongly cautions local agencies against requiring that a bidder meet a DBE contract goal in order to be awarded a
contract, even though the bidder makes an adequate GFE showing. Title 49 CFR 26 specifically prohibits federal-aid recipients from ignoring bona fide GFEs.

**Anticipated Good Faith Efforts**

The following types of actions should be considered by a Local Agency as part of the bidder’s Good Faith Efforts (GFEs) to obtain DBE participation. It is not intended to be exclusive or exhaustive. Determining the adequacy of a bidder’s GFEs to achieve DBE contract goals is a judgment call. Other factors or types of efforts may be relevant in appropriate cases.

- Soliciting through all reasonable and available means (e.g., attendance at pre-bid meetings, advertising and/or written notices) the interest of all certified DBEs that are capable of performing the work of the contract. The bidder must solicit this interest by allowing the DBEs sufficient time to respond to the solicitation. The bidder must determine with certainty if the DBEs are interested by taking appropriate steps to follow up the initial solicitation to the DBEs.

- Selecting portions of the work to be performed by DBEs in order to increase the likelihood that the DBE contract goal will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate DBE participation, even when the prime contractor might otherwise prefer to perform these work items with their own forces.

- Providing interested DBEs with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding to a solicitation.

- Negotiating in good faith with interested DBEs. It is the bidder’s responsibility to make a portion of the work available to DBE subcontractors and suppliers, and to select those portions of the work or material needs consistent with the available DBE subcontractors and suppliers, so as to facilitate DBE participation. Evidence of such negotiation includes: names, addresses, and telephone numbers of DBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why agreements could not be reached with the DBEs who were not selected to perform the work.

- A bidder using good business judgment would consider a number of factors in negotiating with subcontractors, including DBE subcontractors, and would take a firm’s price and capabilities as well as the DBE contract goals into consideration. However, the fact that there may be some additional costs involved in finding and using DBEs is not in itself sufficient reason for a bidder’s failure to meet the DBE contract goal, as long as such costs are reasonable. Also, the ability or desire of a prime contractor to perform the work of a contract with its own organization does not relieve the bidder of the responsibility to make GFEs. Prime contractors are not, however, required to accept higher quotes from DBEs if the price difference is excessive or unreasonable.
• Not rejecting DBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The contractor’s standing within its industry, membership in specific groups, organizations, or associations, and political or social affiliations (for example, union vs. non-union employee status) are not legitimate causes for the rejection or non-solicitation of bids or proposals in the contractor’s efforts to meet the DBE contract goal.

• Making efforts to assist interested DBEs in obtaining bonding, lines of credit, or insurance as required by the recipient or contractor.

• Making efforts to assist interested DBEs in obtaining necessary equipment, supplies, materials, or related assistance or services.

• Effectively using the services of available minority or women community organizations; minority or women contractors or consulting groups; local, state, and Federal minority or women business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of DBEs.

The above actions are typically documented by the bidder on Exhibit 15-H: DBE Information - Good Faith Efforts, which is to be included in the bid package. This information is used by the Local Agencies to determine if the GFE was adequate or not prior to awarding the contract. In determining whether a bidder has made GFEs, the Local Agency may take into account the performance of other bidders in meeting the DBE Contract Goal. The Local Agency should evaluate GFEs considering the DBE commitments of the 2nd and 3rd bidders. For example, when the apparent successful bidder fails to meet the DBE contract goal, but the 2nd and 3rd bidders meet it, it may reasonably raise the question of whether, with additional reasonable efforts, the apparent successful bidder could have met the goal. If the apparent successful bidder fails to meet the goal, but meets or exceeds the DBE participation obtained by the 2nd and the 3rd bidders, this along with other supporting factors may be viewed as evidence of the apparent successful bidder having met the burden of proof of GFEs. See the Civil Rights Disadvantaged Business Enterprise Evaluating Good Faith Efforts video on the FHWA Federal-aid Essentials for Local Public Agency website at: https://www.fhwa.dot.gov/federal-aidessentials/knowmore.cfm

The Local Agency should ensure that the following is included in the contract special provisions:

• The Local Agency may consider the DBE commitments of the 2nd and 3rd bidders when determining whether the low bidder made Good Faith Efforts to meet the DBE contract goal.

• For projects awarded based on a GFE, the Local Agencies must prepare and submit with the award package Exhibit 9-E: Sample Evaluation of Good Faith Efforts, that cites reasons as to why the GFE is adequate. In addition, Exhibit 15-H, without supporting documentation, should be included in the award package.

Note: Exhibit 15-H and Exhibit 9-E need not be submitted with the award package, if the low bidder has met the DBE contract goal. However, bidders should be encouraged to submit Exhibit 15-H with their bid package, even if they believe they have met the...
DBE contract goal, in case errors are found in the *Exhibit 15-G: Construction Contract DBE Commitment*.

**Administrative Review and Reconsideration**

An administrative review (See 49 CFR 26.53) and evaluation of the Good Faith Efforts (GFEs) should be made prior to award in each instance by the Local Agency. If the Local Agency determines that the apparent successful bidder has failed to meet the GFEs requirements, the Local Agency, before awarding the contract, must provide the apparent successful bidder the opportunity for administrative reconsideration in accordance with 49 CFR 26.53.

**Substitutions**

After a contract, which specified goals for the DBE participation, has been executed, adequate Good Faith Efforts (GFEs) are required for any needed substitution of DBE subcontractors to the extent needed to meet the DBE contract goal.

Local Agencies must require a prime contractor not to terminate for convenience a DBE subcontractor listed in *Exhibit 15-G: Construction Contract DBE Commitment* or an approved substitute DBE subcontractor and have the work performed of the terminated subcontract with its own forces or those of an affiliate without the Local Agency’s prior written consent.

When a DBE subcontract is terminated or when a DBE subcontractor fails to complete its work on the contract for any reason, the Local Agency must require the prime contractor to make GFEs to find another DBE subcontractor to substitute for the original DBE subcontractor. These GFEs shall be directed at finding another DBE subcontractor to perform at least the same amount of work under the contract as the DBE subcontractor that was terminated to the extent needed to meet the DBE contract goal.

**Noncompliance**

Local Agencies must include in each prime contract a provision for appropriate sanctions that will be involved if the prime contractor fails to fulfill the DBE commitments made at the time of execution of the contract. The Local Agencies should deny payment to the prime contractor for the portion of the contract that was committed at the time of contract execution to be performed by a DBE subcontractor but was completed by the prime contractor or a substitute non-DBE subcontractor.
