

APPENDIX 54

SERVICE POLICIES (REQUIREMENT FOR ALL FIXED ROUTE TRANSIT PROVIDERS)

Background

FTA requires that all providers of fixed route public transportation develop *qualitative* policies for the following procedures. These policies are to be set by individual transit providers; therefore, these policies will apply to individual agencies rather than across the entire transit industry.

- Vehicle Assignment
- Transit Amenities

The samples below are provided for the purposes of guidance only.

Policies

SAMPLE Vehicle Assignment Policy

Expressed in writing

Vehicles will be assigned to the South, North, and East depots such that the average age of the fleet serving each depot does not exceed “x” years. Low-floor buses are deployed on frequent service and other high-ridership lines, so these buses carry a higher share of ridership than their numerical proportion of the overall bus fleet. Low-floor buses are also equipped with air conditioning and automated stop announcement systems.

All rail cars are equipped with air conditioning, and high-floor rail cars are always paired with a low-floor car to provide accessibility.

Bus assignments take into account the operating characteristics of buses of various lengths, which are matched to the operating characteristics of the route. Local routes with lower ridership may be assigned 30-foot buses rather than the 40-foot buses. Some routes requiring tight turns on narrow streets are operated with 30-foot rather than 40-foot buses.

SAMPLE Transit Amenities Policy

Expressed in writing

Installation of transit amenities along bus and rail routes are based on the number of passenger boardings at stops and stations along those routes.
