Think Outside the Car Take Transit!

Traveling Within Your Community?

Tired of sitting in traffic or breaking the bank to fill your gas tank? Well, you're in luck! The Sacramento Downtown area is served by many transit agencies, so there are lots of ways to address your travel nightmare. By using local bus or neighborhood shuttle services you can take care of daily errands without ever having to start a car. Transit can take you to lots of local destinations, including a light rail or Amtrak station, allowing riders to get to even more popular destinations.

Traveling Within the Sacramento Region?

If you're traveling 30-50 miles or more, frustrating, long, bumper-to-bumper travel and skyrocketing gas prices have no doubt hit you! If this sounds like you, no need to worry; there are viable transit solutions for your travel needs too. Sacramento Regional Transit offers light rail, local, and express bus routes to get you where you need to go. The Sacramento Valley Station is a multi-modal transfer station that allows RT riders to connect to the Amtrak California Capitol Corridor train that travels from Auburn, through Sacramento, to San Jose. With this great transfer point located in the heart of Downtown Sacramento, area residents can travel over 100 miles without ever using a car.

For the real adventurous traveler, the Capitol Corridor train has numerous transfer points to the Bay Area Rapid Transit system. Transferring to a BART train will get you to lots of great tourist attractions in cities like Berkeley, Oakland, and San Francisco. To make life a little easier, discounted BART tickets are available for purchase in the Café car of Capitol Corridor trains.

Bike or Walk

Don't feel like driving? Well, you don't have to. Consider walking or biking to your local bus stop, light rail station, or Park & Ride facility. Not only does it save money, help the environment, and reduce roadway congestion but it's also a great way to get daily physical activity and stay healthy!
