

**Partnership Agreement
With
Transportation Construction Industry**

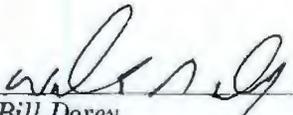

July 21, 2006

We, the undersigned partners in California's transportation construction program, and in cooperation with Governor Arnold Schwarzenegger, will continue to lead the nation in the diversity of our workforce and in our public works contracting practices, including an equitable opportunity for all small businesses, including Disadvantaged Business Enterprises, especially in communities with high unemployment and underemployment, to participate in contracting for infrastructure construction and delivery.

We agree to work together as a cohesive, cooperative team to maximize the participation of small businesses, including Disadvantaged Business Enterprises, in the State's transportation program and to strengthen and sustain California's economy.
