

**PUBLIC FORUM  
NOTICE TO CALTRANS CONTRACTING COMMUNITY  
and  
INTERESTED PARTIES**

The California Department of Transportation (Department) is required by a recent Ninth Circuit Court of Appeals ruling to consider amending its Disadvantaged Business Enterprise (DBE) program goals for all federally funded projects. The Ninth Circuit Court of Appeals decision, Western States Paving Co., Inc. v. Washington Department of Transportation et al., has established new evidentiary standards necessary to constitutionally support the use of race-conscious DBE goals such as those currently used by the Department. The decision is binding on the states within its jurisdiction, including California.

The Department is hosting a public comment forum to allow the Department to consult with all contractors, minority, women's and general contractor groups, community organizations and other organizations, which could be expected to have information concerning the availability of disadvantaged and non-disadvantaged businesses and the effect of discrimination on opportunities for the Disadvantaged Business Enterprise (DBE). In accordance with 49 CFR Part 26.45 (g), the Department invites maximum public participation and solicits comments, invites the submission of evidence and information that may support the use of mixed components of race-conscious and race-neutral measures to achieve the overall goal.

After consideration of comments received during the 45-day public comment period, the Department will determine whether it is able to continue with any level of race-conscious program this federal fiscal year or whether it is necessary to revise the goals to state the specified level of DBE participation will be achieved solely by race-neutral measures.

**You are invited to attend the Department's Public Comment Forum; please come prepared. Your comments and submission of evidence are very important. The events will be held at the following locations:**
