REQUESTED BY: Chuck Suszko

PROPOSED CHANGE:
Replace Standard Plan B11-47, “Cable Railing,” with the Revised Standard Plan RSP B11-47, “Cable Railing,” to raise the height of cable railing from 36” to 42” on all retaining wall structures with cable railing. This change increases the number of cables from 3 cables to 4 cables and increases the required length of cable railing posts. This change is in accordance with the Division of Occupational Safety and Health (Cal/OSHA) requirements.

REASON FOR CHANGE:
The height of the cable railing was increased from 36" to 42" in accordance with the Division of Occupational Safety and Health (Cal/OSHA) requirements. Cable railing on retaining walls prevents falls and must meet Cal/OSHA requirements. The revised Cal/OSHA requirements resulted in the issuance of Revised Standard Plan RSP B11-47.

TIME EXTENSIONS
