

**SECTION 8: PROSECUTION AND PROGRESS**

Issue Date: March 14, 2006

The fourth paragraph of Section 8-1.01, "SUBCONTRACTING" of the Standard Specifications is amended to read:

- Subcontracts shall include provisions that the contract between the State and the Contractor is part of the subcontract, and that all terms and provisions of the contract are incorporated in the subcontract. The Contractor may at the Contractor's option exclude the umbrella or excess liability insurance requirements of Section 7-1.12, "Indemnification and Insurance" for subcontractors who are listed as an additional insured on the Contractor's Umbrella or Excess Liability Insurance Policy with respect to liability arising out of or connected with work or operations performed by or on behalf of the Contractor under this contract. The Contractor shall list each subcontractor name and subcontractor license number as an additional insured directly on the Contractor's liability insurance policy. All other provisions of Section 7-1.12, "Indemnification and Insurance" shall apply to the Contractor and each of the subcontractors, regardless of their names being listed as an additional insured on the Contractor's umbrella liability policy. Subcontracts shall also contain certification by the subcontractor that the subcontractor is experienced in and qualified to do, and knowledgeable about, the subcontracted work. Copies of subcontracts shall be available to the Engineer upon written request, and shall be provided to the Engineer at the time any litigation against the State concerning the project is filed.
